The Dark Social Toija Cinque,Alexia Maddox,Robert W. Gehl,2023-11-07 This book explores how people interact online through anonymous communication in encrypted hidden or otherwise obscured online spaces Beyond the Dark Web itself this book examines how the concept of dark social broadens the possibilities for examining notions of darkness and sociality in the age of digitality and datafied life The authors take into account technical moral ethical and pragmatic responses to ourselves and communities seeking to be belong in of the dark Scholarship on the Darknet and Dark Social Spaces tends to focus on the uses of encryption and other privacy enhancing technologies to engender resistance acts Such understandings of the dark social are naturally in tension with social and political theories which argue that for politics and acts to matter they must appear in the public light They are also in tension with popular narratives of the dark recesses of the web which are disparaged by structural powers who seek to keep their subjects knowable and locatable on the clear web The binary of dark versus light is challenged in this book The authors provocation is that practices of dark resistance motility and power are enacted by emerging data cultures This book draws together scholarship activism and creativity to push past conceptual binary positions and create new approaches to darknet and dark social studies The Dark Social Online Practices of Resistance Motility and Power will be a key resource for academics researchers and advanced students of media studies cultural studies communication studies research methods and sociology This book was originally published as a special issue of Continuum Journal of Media Cultural Studies

Proceedings of the XVI International symposium Symorg 2018 Nevenka Žarkić-Joksimović, Sanja Marinković, 2018-06-12 **Token Economy** Shermin Voshmgir, 2025-04-20

The third edition of Token Economy is not just an update it is a reworking of a foundational book that has helped thousands make sense of how Bitcoin and other blockchain networks like Ethereum or Solana are reshaping our digital financial and political systems The book serves as an excellent primer for understanding the key aspects of the technological infrastructure as well as the decentralized applications built on top of it from DeFi to various token types and decentralized organizations It also explains the difference between DeFi CeFi and TradFi why blockchain networks can be considered the backbone of Web3 and the increasing role of AI This edition adds many practical use cases blending history systems theory and real world use cases to demystify everything from Bitcoin to Tokens and DAOs It explains how blockchain architecture token design and incentive mechanisms intersect with regulation politics and economics You'll learn how crypto rewrites money what stablecoins actually do how DAOs govern digital communities and why many token ecosystems fail not because of code but because of incentives and governance If you're learning building investing teaching or regulating in Web3 this book offers critical clarity in a field full of jargon As a longtime voice of clarity in the crypto world the author Shermin Voshmgir weaves together historical analysis technical insight and interdisciplinary critique in a way that makes complex systems both legible and accessible The third edition includes many more use cases than previous editions and reflects a maturing industry one where many early promises of decentralization have collided with the realities of centralization custody risk regulatory capture and broken incentive design While many books on crypto focus on trading or superficial overviews the book remains rooted in systems thinking and long term relevance What This Book Offers A holistic framework for understanding Web3 infrastructure including blockchain architectures consensus mechanisms privacy scalability and the economics of decentralization A critical exploration of money and tokenization offering both historical context and future scenarios It asks hard questions about whether cryptocurrencies and stablecoins can replace fiat money and explains how financial literacy remains the first line of defense against fraud and hype A grounded analysis of decentralized autonomous organizations DAOs and purpose driven tokens using real world case studies of protocols like Bitcoin Helium Ocean Protocol and MakerDAO A design thinking framework for evaluating token incentives governance structures and stakeholder dynamics bridging political science economics cybernetics and complex systems theory Whether

you're a builder policymaker regulator academic investor or simply crypto curious Token Economy will help you Understand the difference between hype and real infrastructure Explore the incentives and governance dynamics embedded in every protocol Make better decisions around investing building or regulating digital assets Bridge the gap between idealism and realism in Web3

Husbandry Spiritualized: or, the heavenly use of earthly things, etc. Edited by J. Caryl John FLAVELL,1674 **Fortunate Harbor** Davis Bunn,2025-04-29 For readers of Nicholas Sparks and Karen Kingsbury the first in a dazzling new series of romantic feel good standalone stories with a dash of adventure set against the dramatic landscape of North Carolina's Outer Banks the perfect place for second chances bittersweet love and a thrilling quest from internationally bestselling author Davis Bunn It's a promise of better things to come With its colorful history and miles of sand tide and windswept oaks North Carolina's Outer Banks is a paradise for locals and tourists alike For Curtis Gage returning after nineteen years to be the new assistant manager of a 5 star ocean front resort it's a chance to start a new life and come to terms with an old one This is where his father a revered police chief died in the line of duty Whisked away by his mother when he was just a child Curtis always yearned to come back and reclaim this magnificent necklace of islands as home But he never imagined the risks This coastal haven is in attorney Rae Alden's blood and the resort's expansion is encroaching on precious Fortunate Harbor For Rae and the old town families she represents their generations old heritage is not for sale for all the money in the world Who'd have guessed that the ordeal would tie Rae to Curtis a childhood sweetheart whose family tragedy once converged fatefully with her own past The landgrab is reuniting them in more ways than one Because the property is more valuable than even Rae believed The proof is in a secret deed and a long lost map to a bona fide buried treasure If pirate legends rekindled romance and real life adventure aren't enough to make the heart pound Curtis and Rae discover they aren't the only ones hunting In love and in danger they have each other and are finding a place to call home That alone is a fortune worth fighting for
