Construction provides guidance to construction contractors for dealing with the difficult sales and use tax issues inherent in their businesses particularly if they operate in several states In addition to the usual problems in complying with different bodies of law administering a hodge podge of state and local tax rates and dealing with a variety of tax agency audit programs the contract process and insufficient recordkeeping further complicate an already complicated task

*Water and Gas Review ,1907      Climate change and the Stern Review* Great Britain: Parliament: House of Commons: Treasury Committee,2008-02-05 Climate change is one of the biggest challenges facing the world today and requires an urgent

response from Government industry and the individual This inquiry was triggered by the publication of the Stern Review on The Economics of Climate Change 2006 ISBN 9780102944204 which stressed the need to stabilise carbon emissions sooner rather than later and warned of potentially catastrophic impacts if that was not achieved The Review framed the climate

change debate in terms of economic choices and considered the use of economic tools such as environmental taxation and permit trading schemes as economically efficient mechanisms for cutting emissions This Report recommends that the Government give primary consideration to the use of economic tools in combating climate change The Treasury s policies and action in this regard were the main focus of the inquiry The report looks at work on this topic by the Treasury and other select committees It then assesses the economics of the Stern Review and examines the Government s approach to reducing emissions Further sections cover emissions trading schemes environmental taxes and adaptation designed to counter the negative impacts caused by time lags in global and local ecosystems The Committee calls for a twin track approach involving both adaptation and mitigation
