ripe for innovation and discusses how innovative thinking can be used as a disruptive weapon to attack incumbents and create effective new fintech models The book discusses How to relate historical innovations and disruptions in financial services to the current landscape How to follow a process to identify the threats facing incumbent processes and businesses and how innovative thinking can be used as a disruptive weapon to attack incumbents and create effective new fintech models How many fintech innovations will be constructed by re arranging or re purposing existing core processes In this insightful book author James Deitch CPA CMB argues that some of today s high flying fintech innovators will flourish but many may perish as the fire of innovation consumes those fintechs that are slow to monetize their promises *No Red Lights* Alan J.
