*Artificial Intelligence for Strategic Communication* Karen E. Sutherland, 2025-02-17 In an era where AI is revolutionising every aspect of communication this groundbreaking research monograph provides an essential roadmap for navigating the intersection of artificial intelligence and strategic communication Drawing on extensive primary research including interviews with 41 experts and surveys of 400 professionals across three continents and eight countries this book provides insights from relevant scholars communication practitioners and AI tool developers This comprehensive guide combines scholarly rigour with practical application presenting a data informed Model for Practice that helps to withstand the constant evolution of AI technology Each chapter delivers research informed actionable tools relating to the multifaceted field of strategic communication including ethical practice strategy development content creation evaluation and continuous improvement Bridging the gap between theoretical understanding and practical implementation AI for Strategic Communication is an invaluable resource for strategic communication scholars students and practitioners essential for advancing careers in the age of AI This work emerged from the need for a comprehensive source combining scholarly practitioner and AI developer perspectives on strategic communication from around the globe

**Creative AI Tools and Ethical Implications in Teaching and Learning** Keengwe, Jared, 2023-09-18 As generative Artificial Intelligence AI tools become increasingly prevalent it is crucial for educators to develop a nuanced understanding of the ethical implications associated with their use Educators today face the critical task of navigating the pedagogical applications of AI and maximizing its potential to foster student learning Creative AI Tools and Ethical Implications in Teaching and Learning is an insightful exploration of the ethical considerations surrounding the integration of AI in education Educators may fear how it will rapidly transforming the educational landscape but this book serves to support them and delves into the opportunities and challenges that arise when leveraging AI to enhance teaching and learning experiences Creative AI Tools and Ethical Implications in Teaching and Learning goes beyond theory to offer practical strategies for integrating AI creatively into the classroom From learning analytics and educational data mining to AI game activities and generative AI tools like ChatGPT this book equips educators with the knowledge and resources to adapt AI technologies to support teaching and learning effectively Moreover the book explores the vital connection between AI and student assessment highlighting how AI can enhance the evaluation process while maintaining fairness and objectivity It concludes with an insightful glimpse into the future of AI in education envisioning the transformative possibilities that lie ahead This comprehensive guide provides educators researchers and policymakers with the tools they need to navigate the complexities of AI in education

*The Role of Generative AI in the Communication Classroom* Elmoudden, Sanae, Wrench, Jason S., 2024-02-12 In an era marked by the rapid integration of Artificial Intelligence AI into our lives the discourse surrounding its implications has intensified The Role of Generative AI in the Communication Classroom is a pioneering book that delves into the multifaceted dimensions of AI

specifically focusing on OpenAI's revolutionary Chat Generative Pre Trained Transformer Chat GPT and its profound influence on the landscape of communication education This book navigates the intersection of technology education and ethics shedding light on the imperative need for a collaborative approach to shape AI's evolution AI's potential to reshape industries and human roles is undeniable Rooted in the intricate workings of AI and its hallmark Chat GPT this book meticulously dissects the dynamic relationship between humans and machines The discourse extends beyond technology and into the realm of education asserting that the power to mold AI's trajectory cannot rest solely in the hands of developers While revealing AI's transformative potential in the communication classroom the book conscientiously explores ethical concerns and biases fostering a balanced approach to its integration This book is instrumental to the ongoing discourse on AI's role in education The call for ethical considerations inclusivity and regulation serves as a guiding compass for educators students developers and policymakers alike The book ensures a holistic perspective on AI's integration by addressing privacy citation voice ownership and overall digital ethics

*Meeting SDGs in Smart City Infrastructures* Manas Pradhan, 2025-09-01 *Meeting SDGs in Smart City Infrastructures* Federation Interoperability and Discoverability explains the current state of the art practices in the smart city context for digitization and e governance processes in accordance with the UN Sustainable Development Goals It discusses pros and cons of the various data standards and federation measures involved in the digital transformation of cities considering the end user as well as implementor's viewpoint It utilizes real world use cases of cities around the world highlighting their goals and what measures they have adopted It provides guidelines for achieving long term service federation interoperability and discoverability while keeping the UN SDGs in perspective This book provides the basic insights for technical and strategic viewpoints for data and communication interoperability and federation measures Later it provides federated scaling solutions to enable service discovery and features in a cross sector deployment These are useful for designing digitisation measures by using one or leveraging overlapping features of many introduced solutions These solutions are provided for specific contexts and use cases making understandability of the technical interfaces and their relationship with governance mechanisms easier for a range of audiences working in smart city contexts This book will help practitioners and researchers in the smart city domain better understand existing and evolving technologies and how to better formulate their processes to provide a sustainable model for urban development Giving them insight into the feasibility and implications of highly scalable smart city and urban solutions will allow better constructs for urban digital ecosystems enabling information exchange and interoperability across multiple sectors It ultimately supports infrastructure goals of ensuring security privacy and transparency while enabling future concepts for Artificial Intelligence Machine Learning Linked Data and e governance Defines and describes real world digital transformation needs arising from smart city domain Analyzes standards methods and best practices related to processes in smart city infrastructure builds Analyzes and makes recommendations related to the technologies both legacy and upcoming

their set up functions and the future requirements to meet the SDGs

### **Contemporary Issues in Early Childhood**

**Education and Care**, 2025-02-05 Contemporary Issues in Early Childhood Education and Care delves into the dynamic landscape of early childhood education and critically addresses the intersection of theory and practice offering a range of theoretical frameworks and practical strategies to support the holistic development of children It explores a diverse array of topics including integrating artificial intelligence tools in preschool settings the development of metacognitive skills in young children and the role of participatory practices in fostering democratic engagement It also examines resilience building through innovative playground designs and the importance of inclusive approaches for refugee and immigrant populations This book also presents entrepreneurial coaching as a framework for enhancing children's participation lifelong learning and values driven parenting from a Christian perspective Additionally the volume highlights the impact of the COVID 19 pandemic on young children's psychological well being emphasizing their heightened awareness and involvement in decision making processes Inclusive assessment methods supporting shy children in educational settings are explored and the benefits of slow pedagogy versus hurried schooling are examined Furthermore it investigates the role of statistical analysis in shaping early childhood education policies and practices This work underscores community support systems can mitigate stress and adversity and strengthen children's capacity to thrive in their communities At the same time play environments can nurture physiological and psychological resilience With a strong focus on equity pedagogical innovation and evidence based approaches this volume is an essential resource for educators researchers and policymakers to create inclusive equitable and supportive learning environments that foster lifelong learning trajectories *Proceedings of the ...*

### **Artificial Intelligence in Real-Time Control**

**1991** International Federation of Automatic Control, 1992-07-03 This set of proceedings contains the most significant papers presented at the third IFAC Workshop on Artificial Intelligence in Real time Control which was held from September 23 25 1991 in the USA In this workshop although there were still some exotic applications a more practical view of the applications and limitations of current AI technology dominated the participants discussions With its resultant focus on reliability and safety considerations the workshop posed as many questions as it answered It provides an excellent mirror of the current state of the art which these proceedings are intended to illustrate

### **Artificial Intelligence in Design '91**

John S. Gero, 1991 Artificial Intelligence in Design 91 is a collection of 47 papers from the First International Conference on Artificial Intelligence in Design held at Edinburgh in June 1991 The papers in this book are grouped into 13 headings starting with a background of AI design systems and to which extent AI that results from being used as planning tool be applied to quality oriented design processes in architecture A constraint driven approach to object oriented design is also shown on real world objects The use of CADSYN in the structural design of buildings is examined along with design dependent knowledge and design independent knowledge Discussions on empowering designers with integrated design environments are given

whereby design objects may be retrieved from catalogues without requiring users to form queries Mention is given to automated adjustment of parameter values frequently used in computer routine applications The book also introduces the Computer Aided Design CAD as applied to architecture Design representation using data models non monotonic reasoning in design and the cognitive aspects of design using empirical studies are discussed Topics of the industrial applications of AI in design such as the needed steps to develop a successful AI based tool and a review of the Castlemain Project and telecommunication distribution networks follow This book is suitable for programmers computer science students and architects and engineers who use computers in their line of work
