No Place Like Home C.J. Janovy, 2018-01-15 Far from the coastal centers of culture and politics Kansas stands at the very center of American stereotypes about red states In the American imagination it is a place LGBT people leave No Place Like Home is about why they stay The book tells the epic story of how a few disorganized and politically naive Kansans realizing they were unfairly under attack rolled up their sleeves went looking for fights and ended up making friends in one of the country's most hostile states The LGBT civil rights movement's history in California and in big cities such as New York and Washington DC has been well documented But what is it like for LGBT activists in a place like Kansas where they face much stiffer headwinds How do they win hearts and minds in the shadow of the Westboro Baptist Church Christian motto God Hates Fags Traveling the state in search of answers from city to suburb to farm journalist C J Janovy encounters LGBT activists who have fought in ways big and small for the acceptance and respect of their neighbors their communities and their government Her book tells the story of these twenty first century citizen activists the issues that unite them the actions they take and the personal and larger consequences of their efforts however successful they might be With its close up view of the lives and work behind LGBT activism in Kansas No Place Like Home fills a prairie sized gap in the narrative of civil rights in America The book also looks forward as an inspiring guide for progressives concerned about the future of any vilified minority in an increasingly polarized nation

Human Behavior, Psychology, and Social Interaction in the Digital Era Mesquita, Anabela, Tsai, Chia-Wen, 2015-06-29 The advancement of new technologies has greatly increased the impact of information systems on daily human life As technology continues to rapidly progress human computer interaction is quickly becoming a topic of interest Human Behavior Psychology and Social Interaction in the Digital Era combines best practices and empirical research on social networking and other related technologies Emphasizing creative and innovative implementation across various disciplines this publication is a critical reference source for researchers educators students IT managers and government healthcare agencies concerned with the latest research in the fields of information systems and networks mobile technology cybercrime and multitasking

Dragon Dictate Maria Langer, 2012 The book walks readers through how to train Dragon Dictate allowing it to recognize the way readers speak Readers will learn how to add specialized words and names and how to control Mac applications using their voice The book then moves on to editing text documents allowing readers to select delete capitalize and work with text The book also covers having Dragon read text back to the user allowing the user to proofread and edit dictated documents Finally the book covers more advanced topics such as creating new voice commands for controlling Mac applications and controlling the mouse via voice commands
