It walks teachers step by step through the process of using mathematics across all high school content domains as a tool to explore, understand and respond to issues of social injustice including environmental injustice, wealth inequality, food insecurity and gender, LGBTQ and racial discrimination. This book features Content cross referenced by mathematical concept and social issues, Downloadable instructional materials for student use, User friendly and logical interior design for daily use, Guidance for designing and implementing social justice lessons driven by your own students unique passions and challenges.
