Why Do They Act That Way? - Revised and Updated David Walsh, 2007-11-01 This anniversary edition revised and updated goes beyond raging hormones and peer pressure to explain why adolescents act the way they do and what parents and teachers can do about it. Why Do They Act That Way was the first book to explain the scientific brain based reasons behind teens impulsive behavior, lack of focus, self consciousness, territoriality, fatigue, and their quickness to anger and take risks to name just a few common teen problems. Now award winning psychologist Dr David Walsh has updated this classic with the latest research into the adolescent brain and the new challenges that they face with social media and the 24/7 online world. With practical advice and reassuring guidance, Walsh provides realistic solutions for dealing with every day and major challenges. As a parent, psychologist, coach, and trusted expert, Dr Walsh offers the best advice to help adolescents thrive and parents survive.

**Creating Trauma-Informed Schools** Eileen A. Dombro, Christine Anlauf Sabatino, 2019-01-15. Children in all educational levels are vulnerable to abuse, neglect, bullying, violence in their homes and neighborhoods, and other traumatic life events. Research shows that upwards of 70% of children in schools report experiencing at least one traumatic event before age 16. Though school social workers are on the front lines of service delivery through their work with children who face social and emotional struggles in the pursuit of education, there are scant resources to assist them in the creation of trauma informed schools. This book presents an overview of the impact of trauma on children and adolescents, as well as interventions for direct practice and collaboration with teachers, families, and communities. Social work practitioners and students will learn distinct examples of how to implement the ten principles of trauma informed services in their schools, provide students with trauma informed care that is grounded in the principles of safety, connection, and emotional regulation, and develop beneficial skills for self care in their work.
