**You Will Be Assimilated** David P. Goldman,2020-07-09 America has finally recognized China's bid for world dominance but we're still losing ground. Domination of the next generation of mobile broadband is just the tip of the spear. Like the Borg in Star Trek, China will assimilate you into a virtual empire controlled by Chinese technology. China is taking control of the Fourth Industrial Revolution, the economy of artificial intelligence and quantum computing just as America dominated the Third Industrial Revolution driven by the computer. Long in planning, China's scheme erupted into public awareness when it emerged as the world leader in 5G internet. America is on track to become poor, dependent and vulnerable unless we revive the American genius for innovation. Trade wars and tech boycotts have failed to slow China's plans. David P. Goldman watched China unfold its imperial plan from the inside as an investment banker in China and strategic consultant and as a principal of a great Asian news organization, the Asia Times. This is an eyewitness, firsthand account of the biggest turning point in world affairs since the Second World War, with a clear explanation of what it means for America and for you and what America can do to remain the world's leading superpower.

Now updated with an improved searching structure, the Federal Regulatory Directory continues to be the leading reference for understanding federal regulations, providing a richer, more targeted exploration than is possible by cobbling together electronic and print sources.
