**Margarita Pavlova, Madhu Singh**

## Uil Current Events Study Guide 2013:

**Recognizing Green Skills Through Non-formal Learning** Margarita Pavlova, Madhu Singh, 2022-08-09 This open access book looks into the roles and practices of small and micro enterprises in formal and informal economies across seven countries and one territory in terms of how they contribute to environmental and sustainable development and green skills promotion. By taking into account the perspectives in these four sectors catering automotive waste management and polyvinyl chloride production this book maps environmental green practices in the region identifying mechanisms used to assess existing skills i.e. knowledge skills and competencies and evaluating the potential for green skills inclusion in recognition validation and accreditation

### **Multilingual Learning and Language Supportive Pedagogies in**

**Sub-Saharan Africa** Elizabeth J. Erling, John Clegg, Casmir M. Rubagumya, Colin Reilly, 2021-07-01 This edited collection provides unprecedented insight into the emerging field of multilingual education in Sub-Saharan Africa. SSA Multilingual education is claimed to have many benefits amongst which are that it can improve both content and language learning especially for learners who may have low ability in the medium of instruction and are consequently struggling to learn. The book represents a range of Sub-Saharan school contexts and describes how multilingual strategies have been developed and implemented within them to support the learning of content and language. It looks at multilingual learning from several points of view including translanguaging or the use of multiple languages and especially African languages for learning and language supportive pedagogy or the implementation of a distinct pedagogy to support learners working through the medium of a second language. The book puts forward strategies for creating materials classroom environments and teacher education programmes which support the use of all of a student's languages to improve language and content learning. The contexts which the book describes are challenging including low school resourcing poverty and low literacy in the home and school policy which militates against the use of African languages in school. The volume also draws on multilingual education approaches which have been successfully carried out in higher resource countries and lend themselves to being adapted for use in SSA. It shows how multilingual learning can bring about transformation in education and provides inspiration for how these strategies might spread and be further developed to improve learning in schools in SSA and beyond.
