*The New Routledge Companion to Science Fiction* Mark Bould, Andrew M. Butler, Sherryl Vint, 2024-06-13 The New Routledge Companion to Science Fiction provides an overview of the study of science fiction across multiple academic fields. It offers a new conceptualisation of the field today marking the significant changes that have taken place in sf studies over the past 15 years. Building on the pioneering research in the first edition the collection reorganises historical coverage of the genre to emphasise new geographical areas of cultural production and the growing importance of media beyond print. It also updates and expands the range of frameworks that are relevant to the study of science fiction. The periodisation has been reframed to include new chapters focusing on science fiction produced outside the Anglophone context including South Asian, Latin American, Chinese and African diasporic science fiction. The contributors use both well established critical and theoretical approaches and embrace a range of new ones including biopolitics, climate crisis, critical ethnic studies, disability studies, energy humanities, game studies, medical humanities, new materialisms and sonic studies. This book is an invaluable resource for students and established scholars seeking to understand the vast range of engagements with science fiction in scholarship today. Chapter 39 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license.

**The World According to Cunk** Philomena Cunk, 2024-11-19 Romans, Madrigals, The Dark Ages, Revolutions, Trumpets, The Oranges of The First World War. All of this except trumpets and more is covered in this definitive, easy, clean history of all world history so far written by the 21st Century's leading historian, philosopher and thinker, Philomena Cunk. Focussing on the inventions, art and brainboxes that made the modern world the unbearable place it is today, *The World According To Cunk* is the history book to end all history books, more unputdownable than Andrew Marr's *History Of The World*, less unpickable than Yuval Noah Harari's *Sapiens* and noticeably less in ancient Greek than Herodotus' *Histories*. Philomena Cunk says About the world written on the world and available at all the world's remaining bookshops. *The World According To Cunk* is the definitive history of the world. There will never be another history book. Unless something major happens. Even then they'll probably just put something up on TikTok about it. A word of warning: please don't buy it if you're expecting anything about trumpets in it. You will only be disappointed.
