Swift Viewing The Popular Life Of Subliminal Influence:

Swift Viewing Charles R. Acland, 2012-01-02 Acland looks back at the strange history of subliminal seduction a theory first propagated in the late 1950s by marketing researcher James Vicary who claimed that movie audiences bought more refreshments if advertising messages too quick to be noticed were inserted into movies The study was soon proven false but that hasn't kept the concept from having a long afterlife in the popular imagination

Adman's Dilemma Paul Rutherford, 2018-01-01 The Adman's Dilemma is a cultural biography that explores the rise and fall of the advertising man as a figure who became effectively a licensed deceiver in the process of governing the lives of American consumers Apparently this personage was caught up in a contradiction both compelled to deceive yet supposed to tell the truth It was this moral condition and its consequences that made the adman so interesting to critics novelists and eventually filmmakers The biography tracks his saga from its origins in the exaggerated doings of P T Barnum the emergence of a new profession in the 1920s the heyday of the adman's influence during the post WW2 era the later rebranding of the adman as artist until the apparent demise of the figure symbolized by the triumph of that consummate huckster Donald Trump In The Adman's Dilemma author Paul Rutherford explores how people inside and outside the advertising industry have understood the conflict between artifice and authenticity The book employs a range of fictional and nonfictional sources including memoirs novels movies TV shows websites and museum exhibits to suggest how the adman embodied some of the strange realities of modernity

Information Fantasies Xiao Liu, 2019-02-19 Winner of the Science Fiction Research Association Book Award A groundbreaking alternate history of information technology and information discourses Although the scale of the information economy and the impact of digital media on social life in China today could pale that of any other country the story of their emergence in the post Mao sociopolitical environment remains untold Information Fantasies offers a revisionist account of the emergence of the information society arguing that it was not determined by the technology of digitization alone but developed out of a set of techno cultural imaginations and practices that arrived alongside postsocialism Anticipating discussions on information surveillance data collection and precarious labor conditions today Xiao Liu goes far beyond the current scholarship on internet and digital culture in China questioning the limits of current new media theory and history while also salvaging postsocialism from the persistent Cold War structure of knowledge production Ranging over forgotten science fiction unjustly neglected films corporeal practices such as qigong scientific journals advertising and cybernetic theories Information Fantasies constructs an alternate genealogy of digital and information imaginaries one that will change how we look at the development of the postsocialist world and the emergence of digital technologies

Subliminal influence on imagery Bert Westerlundh, 1985 **Videoland** Daniel Herbert, 2014-01-24 Videoland offers a comprehensive view of the tangible phase of consumer video when Americans largely accessed movies as material

commodities at video rental stores Video stores served as a vital locus of movie culture from the early 1980s until the early 2000s changing the way Americans socialized around movies and collectively made movies meaningful When films became tangible as magnetic tapes and plastic discs movie culture flowed out from the theater and the living room entered the public retail space and became conflated with shopping and salesmanship In this process video stores served as a crucial embodiment of movie culture s historical move toward increased flexibility adaptability and customization In addition to charting the historical rise and fall of the rental industry Herbert explores the architectural design of video stores the social dynamics of retail encounters the video distribution industry the proliferation of video recommendation guides and the often surprising persistence of the video store as an adaptable social space of consumer culture Drawing on ethnographic fieldwork cultural geography and archival research Videoland provides a wide ranging exploration of the pivotal role video stores played in the history of motion pictures and is a must read for students and scholars of media history
