Systemic Interventions For Collective And National Trauma Theory Practice And Evaluation:

Systemic Interventions for Collective and National Trauma Michal Shamai, 2015-09-07 Systemic Interventions for Collective and National Trauma explains the theoretical basis for understanding collective and national trauma through the concept of systems theory and gives ways of implementing systems theory in interventions at the micro mezzo and macro levels Particular attention is given to the use of socio political and cultural aspects of interventions with victims as well as to the ethical codes that social workers and other mental health professionals need to integrate in their work with collective national trauma Separated into two distinct parts on theory and practice this volume is appropriate for practitioners as well as students in advanced courses

ETA's Terrorist Campaign Rafael Leonisio, Fernando Molina, Diego Muro, 2016-07-28 This book analyses the rise and decline of the Basque terrorist group Euskadi Ta Askatasuna ETA Basque Homeland and Freedom ETA declared a unilateral ceasefire in November 2011 bringing to a close a campaign of political violence that started in the late 1960s By the beginning of the twenty first century the overwhelming majority of secession supporters agreed that an independent Basque homeland would be realised through ballots and not bullets Providing an interdisciplinary overview of radical Basque nationalism that pays special attention to the drivers for ETA's decline defeat and disbandment this book includes chapters by historians political scientists and sociologists who offer three important theoretical and empirical contributions to the literature on nationhood and security studies Firstly the book reassesses the military conflict that opposed ETA and the Spanish state by paying special attention to tactical and strategic considerations as well as the counter terrorist policy itself Secondly it provides an original interpretation of the politics of fear which surrounded the process of victimization as well as assessing the extent to which the issue of violence led to the polarisation of citizens Thirdly the authors examine the historical narratives and rituals that contributed to the production and reproduction of identity binaries and memories of war Arguing that the defeat of ETA must be contextualised within the strategic evolution of Basque nationalism the declining resonance of the radical message and the effectiveness of the Spanish counter terrorist effort this book is essential reading for students and scholars working in the areas of European politics nationalism and terrorism studies

Constitutional Theory: Schmitt after Derrida Jacques de Ville, 2017-04-21 This book advances a new reading of the central works of Carl Schmitt and in so doing rethinks the primary concepts of constitutional theory In this book Jacques de Ville engages in a close analysis of a number of Schmitt's texts including Dictatorship 1921 The Concept of the Political 1927 Constitutional Theory 1928 Land and Sea 1942 Ex Captivitate Salus 1950 The Nomos of the Earth 1950 and The Theory of the Partisan 1963 This engagement takes place from the perspective of constitutional theory and focuses specifically on concepts or themes such as sovereignty the state the political constituent power democracy representation the constitution and human rights The book seeks to rethink the structure of these concepts in line with Derrida's analysis of Schmitt's texts on the concept of the political in Politics of Friendship 1993 This happens by way of an

analysis of Derrida's engagement with Freud and other psychoanalysts. Although the main focus in the book is on Schmitt's texts, it further examines two texts of Derrida: Khra 1993 and Fors The English Words of Nicholas Abraham and Maria Torok 1976 by reading these alongside Schmitt's own reflections on the positive concept of the constitution.

Tigray: The Hysteresis of War, 2024-11-17 The Tigray War 2020-2022 may have claimed as many as 700,000 lives. Fought between the national defence forces of Ethiopia and Eritrea and the Tigray Defence Forces, the conflict unleashed horrific atrocities on civilians, including widespread massacres. The war was shrouded in secrecy due to a communications blackout and a siege on Tigray, making it nearly impossible for people in the region to report on events and for the outside world to grasp the scale of the tragedy. This book, the first in a three-part series, uncovers Eritrea's concealed role in the war, including its involvement in massacres and particularly cruel and inhumane sexual violence. These acts were designed not only to terrorise but to break the spirit of the Tigrayan people, with the aim of erasing Tigray as an ethnic and cultural group. This book also explores how the war has fundamentally altered the Tigray region, a transformation that may be difficult to reverse, described through the lens of the concept of hysteresis. Drawing on a collaborative investigation between universities inside and outside Ethiopia and primarily employing an ethnographic approach, the study concludes that genocide may have occurred in Tigray. The international community, it argues, has a duty to investigate these claims.

Routledge Handbook of Human Trafficking Ryszard Piotrowicz, Conny Rijken, Baerbel Uhl, 2017-08-25 Trafficking in human beings (THB) has been described as modern slavery. It is a serious criminal activity that has significant ramifications for the human rights of the victims. It poses major challenges to the state, society, and individual victims. THB is not a static given but a constantly changing concept depending on societal changes and opinions, economic situations, and legal developments. THB occurs both transnationally and within countries. The complexity of THB is such that it requires a wide range of expertise to fully address the phenomenon. Edited by a team of leading international academics, the Routledge Handbook of Human Trafficking will provide an interdisciplinary introduction to THB. It is aimed at academics, students, research universities, and non-governmental organisations, as well as policy makers. It will review THB through the lens of law, anthropology, social and political science, and will address statistical data, protection issues, and showcase the most effective research methods, analyse the various actors and stakeholders, and the different types of exploitation of trafficked persons. It will critically highlight and analyse the most pressing current challenges posed by THB.
