William Perkins Black, 1887 **The Rise of US Military Legalism** Doyle K. Hodges, 2025-11-25 This book introduces and
explains the concept of military legalism and analyzes its importance for US military decision making. The book documents a
change over the past 50 years in the way in which US military officers make decisions about using force which it calls
military legalism. Rather than relying solely on professional military judgment and professional military ethics officers are
increasingly using legal norms and reasoning to justify their choices. This book explores how widespread this practice has
become and explains why it has emerged and examines some of its implications. Using historical cases from World War II through
the opening days of Operation Iraqi Freedom the book traces changes in the way in which civilian policymakers have
governed US military decisions about the use of force and how the military has responded to these changes. While military
legalism is normatively neither good nor bad, legalistic reasoning has been used to justify morally deficient policies and a
reliance on legal reasoning may have unanticipated and unexamined effects on the norms of civil-military relations. This book
will be of interest to students of law, military studies, ethics, and International Relations. *Evidence, Respect and Truth* Liat
Levanon, 2022-11-03 Can we rely solely on statistics when we judge what is true and just? This book takes a holistic approach
to addressing this question. It considers the legal trial as its paradigmatic case study before analysing a wide range of
different cases including profiling the use of algorithms to predict students' grades and the authorisation of automated cars.
The book suggests that when we make judgements about the truth or about justice, approximations are not good enough.
Truth and justice are uncompromising. They must be so because the value that underlies them both is respect and respect
takes no compromise. Thus in the search for truth as in the search for justice, a body of evidence that imposes a statistical
compromise will not do. Only evidence that in principle allows reaching the truth and doing justice is good evidence. Once
such evidence has been traced, the burden is on us to make good use of the evidence and reach truth and justice. We might or
might not succeed but once we have done our best on evidence that allows success, our judgements are justified and as such
they can resolve conflicts over the truth and over justice. *We Are Better Than This* Robyn Cadwallader, 2015-10-07 We Are
Better Than This is a collection of essays and poetry addressing the Australian government's asylum seeker policy. The aims

of the book are several to provide some of the information about the situation in detention camps that is being withheld by the government to correct some of the government's misrepresentations of the current situation to clarify some of the complex legal issues surrounding the right to seek asylum and to give some insight into the plight of those who are seeking asylum. It is hoped that this book will better inform people about the government's policies to support those who are unsatisfied and seeking to change the situation as well as those who are uncertain and need more easily accessible and reliable information. Contributors are drawn from several areas of expertise and engagement with asylum seekers. **The Partisan Views of Reverend James Parkes** As'ad Razzūq, 1970 The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University Hoover Institution on War, Revolution, and Peace, 1969 The Tragedy of Errors Arleigh Lee Darby, 1954 **The Northwestern Reporter**, 1917 **Himmat**, 1977 **Pillar of Fire**, 1945 The Tragedy of Errors and Others Ellery Queen, 1999 The Tragedy of Errors is the lengthy plot outline for the final but never published EQ novel containing all the hallmarks of the greatest Queen tales: the dying message, the succession of false solutions before the truth is revealed, and scrupulous fairplay to the reader.
