## Safety concerns everybody!

Always follow the instructions in the machine's operator's manual, which is a supplement to the Service Manual.

The Operator's Manual must always be kept in the cab for easy reference.

Take charge and manufacture machines with a high level of safety as well as effectiveness. All this can only be ensured if anyone who is asked to perform service on any of our machines does not read the safety instructions, or does not follow them, e.g., does not replace guards (either on original machine parts instead of using a ladder, goes a field of noise instead of protection or uses the wrong tools for the job).

In order to maximize safety and effectiveness, always use the intended and adapted spare parts for the machine. Using genuine Volvo spare parts is recommended since they are adapted to the machine for highest safety and quality.

Machines which cause accidents, injure people often do.

A safety-conscious person and a well-maintained machine make for a safe, effective and productive combination.

Those who do not follow the safety instructions and observe the warnings in this manual must make sure that their work method is safe. Otherwise, there is a great risk of accidents, perhaps even accidents that result in fatalities.

### **WARNING**

#### Machine safety

We provide a dozen of safety points throughout the manual. We emphasize that these 'Warnings, do not fail safety' may be necessary.

Get to know the capacity and limits of your machine!

## Transporting the machine

### Load/unload machine

- The carrier vehicle must be securely braked and have its wheel blocks.
- If the machine is driven on the driving point shall not be braked.
- If the machine is lifted up on the carrier vehicle, the steering point must be braked.
- During transport, the machine's steering point must be braked and the wheels blocked.

Figure 1

### 1. Steering point lock

### **WARNING**

If the machine is to be driven onto a loading block onto the platform of a truck trailer or delivery van, make sure that the vehicle is securely braked. For example, wheel blocks. Make sure that there is no risk that the vehicle cannot roll over or move in a dangerous manner when the machine is driven on.

#### Safety

Do not forget to protect the steering point and secure the steering point onto the bracket provided for the purpose when the machine is used.
