The latest epidemic has swamped suburban and rural areas and drawn many teens into its deadly wake. The drug can take over the lives of even first time or casual users. Addiction makes slaves of heroin users and often leads to a life of sickness, crime and regret. Addicts risk sacrificing everything they cherish in their lives for the drug, receiving jail time for drug related offenses and losing their own lives in the process. Discovering how the drug destroys the brain and body of a user and how addiction devastates the lives it touches can help one make the decision to avoid heroin at all costs. That is exactly what the information presented here achieves. Readers will come away shaken with a new and stark understanding of heroin's true toxicity and its utterly false and destructive allure.
