Swarm Star Force Series Book 1:

The Essential Reader's Companion: Star Wars Pablo Hidalgo, 2012-10-02 THE DEFINITIVE WORD ON STAR WARS FICTION The legendary motion picture Star Wars has spawned two big screen sequels and three prequels and decades of bestselling fiction. From the original movie tie in novel through the monumental *Fate of the Jedi* series legions of devoted readers have helped expand science fiction's most celebrated film saga into a page turning print sensation. Now for the first time a comprehensive overview of these sweeping Star Wars adventures is presented in one beautifully illustrated volume. *Star Wars: The Essential Reader's Companion* spans the entire galaxy of published Star Wars fiction movie novelizations, original stand alone and series novels, short stories, eBook novellas, young adult titles and comics and features a concise synopsis of each story including key characters and planets, exclusive behind the scenes facts and anecdotes about authors, plot and character development, continuity notes and significance in the Star Wars Expanded Universe, details on which novels are linked to Star Wars comic books from Dark Horse and Marvel, a chronological listing of titles spanning the 25 000 year history of the Star Wars universe and placing each story in its proper context. More than one hundred original paintings throughout by some of fans favorite artists. Whether skimming through fateful eras from the Old Republic to the New Jedi Order, delving deep into the ancient history of the Lost Tribe of the Sith or the tumultuous Clone Wars, crossing paths and lightsabers with Dark Lords such as Plagueis or Bane Sidious or Vader, helming the Millennium Falcon with Han Solo or mastering the Force with Luke Skywalker, this one of a kind, one stop reference is a must for fans looking to maximize their knowledge of the sprawling Star Wars Expanded Universe.

The History and Politics of Star Wars Chris Kempshall, 2022-08-11 This book provides the first detailed and comprehensive examination of all the materials making up the Star Wars franchise relating to the portrayal and representation of real world history and politics. Drawing on a variety of sources including films, published interviews with directors and actors, novels, comics and computer games, this volume explores the ways in which historical and contemporary events have been repurposed within Star Wars. It focuses on key themes such as fascism and the Galactic Empire, the failures of democracy, the portrayal of warfare, the morality of the Jedi and the representations of sex, gender and race. Through these themes this study highlights the impacts of the fall of the Soviet Union, the War on Terror and the failures of the United Nations upon the galaxy far, far away. By analysing and understanding these events and their portrayal within Star Wars it shows how the most popular media franchise in existence aims to speak about wider contemporary events and issues. *The History and Politics of Star Wars* is useful for upper level undergraduates, postgraduates and scholars of a variety of disciplines such as transmedia studies, science fiction, cultural studies and world history and politics in the twentieth and twenty first centuries.
