Syncretism Anti Syncretism Syncretism Anti Syncretism:

Syncretism/anti-syncretism Charles Stewart, Rosalind Shaw, 1994 The contributors explore the issues of agency and power which motivate the conflicting discourses surrounding syncretism that is the mixing of different religious traditions within a culture Syncretism/Anti-Syncretism Rosalind Shaw, Charles Stewart, 2003-12-16 Syncretism the synthesis of different religious is a contentious word Some regard it as a pejorative term referring to local versions of notionally standard world religions which are deemed inauthentic because saturated with indigenous content Syncretic versions of Christianity do not conform to official read European models In other contexts however the syncretic amalgamation of religions may be validated as a mode of resistance to colonial hegemony a sign of cultural survival or as a means of authorising political dominance in a multicultural state In Syncretism Anti Syncretism the contributors explore the issues of agency and power which are integral to the very process of syncretism and to the competing discourses surrounding the term **Syncretism and Christian Tradition** Ross Kane, 2020-11-26 Studying the history of syncretism s use indicates wider interpretative problems in religious studies and theology regarding race and revelation It also indicates the importance of seeing tradition as adaptive and amalgamating rather than static In theology and religious studies alike discourses of syncretism are positioned within racialized perceptions which construct a center and periphery based upon white European knowledge In Christian theology more specifically syncretism s use also shows ways that theologians try to protect the category of divine revelation from human interference leading to interpretative problems that sidestep material history **Pluralism: The Future of Religion** Kenneth Rose, 2013-03-28 Theology of religions has defaulted in the last two decades to an epicyclic inclusivism which seeks to undermine pluralism with claims that it is covertly triumphalistic and that it mirrors the logic of exclusivism With the exception of pioneers in the field such as John Hick and Paul Knitter most major figures in this theological field have retreated from pluralism and promote versions of particularism and inclusivism Pluralism The Future of Religion argues for an apophatic pluralism that is motivated by the insight that it is impossible to secure universal assent for changeable bodies of religious teachings This insight implies the non finality and consequent departicularization of all religious teachings and their inclusivistic defenses These conclusions point us inevitably toward pluralism and lead us out of the inclusivistic impasse of contemporary theology in religions **Muslims and Christians in the Bulgarian Rhodopes.** Magdalena Lubanska, 2015-01-01 The book by Magdalena Lubanska examines the role of religious syncretism in the social and religious life of Muslim Christian communities in the Western Rhodopes The author is interested mainly in the origins and motivations of various beliefs and behaviors which at first sight may appear to be syncretic She looks at syncretism in the context of anti syncretic tendencies particularly pronounced among the Muslim neophytes and young members of the Muslim religious elite who are not interested in the local forms of post ottoman Islam Adat Islam preferring instead a pure form of religion a class of fundamentalist religious movements rooted in orthodox Islam and seeking to remain faithful to

mainstream Islamic thought and tradition Salafi Islam Lubanska findings offer an insight into the fact that although certain actions may appear syncretic in nature their underlying intentions are often not in fact motivated by syncretic tendencies This is the first study to look at syncretism in Bulgaria from this perspective *The Review of Korean Studies* ,2005 **The Anthropology of Buddhism and Hinduism** David N. Gellner,Max Weber,2001 With reference to Nepal *The Genesis of Early Christian Art* Yukako Suzawa,2008 This study of the beginnings of Christian art looks at the period when Christianity co existed alongside paganism and identifies juxtapositions of paganism in Christian art Chapters discuss iconography and ritual space architecture and the re use of monuments and other artworks **Reinventing Religions** Sidney M. Greenfield,A. F. Droogers,2001 Once a central concept in anthropology syncretism has recently re emerged as a valuable tool for understanding the complex dynamics of ethnicity postcolonialism and transnationalism Building on a century long tradition of scholarship this important book formulates a broader view of the mixing and interpenetration of religious beliefs and practices primarily from Africa and Europe highlighting the ways in which religions and cultures on both sides of the Atlantic have been assimilated and innovatively changed Divided into four sections the book focuses on religious syncretism in Brazil Jamaica and other parts of the Caribbean and West Africa Greenfield and Droogers have brought together an array of outstanding international scholars whose rich and varied essays on specific geographical locales and customs comprise an innovative and comprehensive view of the transference of religious traditions and their continuity and reformulation on two continents **Religion Index Two** ,1997 A Theology of the In-between Carl F. Starkloff,2002 Since then among Christians the word has signified theological distortion although anthropologists have employed it neutrally to describe the phenomena of religious mixtures resulting from intercultural contacts Accommodation and Resistance Brendan Jamal Thornton,2005 Byzantium and the Modern Greek Identity David Ricks,Paul Magdalino,1998 This collection of commissioned essays aims to present an overview of some of the different tendencies manifested by modern Greek attitudes to Byzantium since the late 18th century Enlightenment *Contending with Marginality* Chandra Mallampalli,2000 **The Perils of Face** Ivo A. Strecker,Jean Lydall,2006 The present essays try to know how the culturally different peoples of Ethiopia remember their past and what conceptions they entertain of each other explore the dangers inherent in situations of cultural contact and examine how the powerful notions of pride honor name and self esteem come into play as people struggle to maintain their identity individually or as a group The master trope for this kind of sensitivity and vulnerability in social and cultural interaction is face This is why the volume is entitled The perils of face **Subaltern Studies: Muslims, Dalits, and the fabrications of history** Ranajit Guha,2005 *Asian Journal of Social Science* ,2008 A Plausible Story and a Plausible Way of Telling it Kristien Hemmereichs,1987 Title on spine A structuralist analysis **Traveling Sounds** Wilfried Raussert,John Miller Jones,2008 Within their approach to trace the routes of music and music s impact on identity formation the editors take the popularity of American music more or less for granted Most genres addressed in this study

have emerged within the multiethnic US or the Americas on a larger scale most have traversed through the Americas and in different adaptations through different parts of the world Tracing the migration of sounds the editors see American music at home and abroad as an intricate part of a historical process of globalization and as embedded in complex and multidirectional processes of exchange and transformation They understand the migration of American forms of music not as a one dimensional homogenizing process of Americanization but rather as a multidirectional journey with diverse and multi layered forms of music emerging in different and shifting locales The contributors cover a broad range of musical genres ranging from sacred music and avant garde music to jazz reggae and rock Moreover crossovers between film theater video art and music are explored In its interdisciplinary and international orientation this book will contribute to the new direction American Studies has taken recently and expand a cultural studies approach to the field of music at the same time **Africa**, 1999 Includes Proceedings of the Executive council and List of members also section Review of books
