Ten Lessons in Theory Calvin

Thomas, 2023-07-27 A thoroughly updated edition of the witty and engaging exploration of the history application and tenets of literary theory The first edition of Ten Lessons served as a literary introduction to theoretical writing a strong set of pedagogical prose poems unpacking Lacanian psychoanalysis continental philosophy Marxism cultural studies feminism gender studies and queer theory Here Calvin Thomas returns to these ten lessons each based on an axiomatic sentence selected from the canons of theory each exploring the basic assumptions and motivations of theoretical writing But while every lesson explains the working terms and core tenets of theory each also attempts to exemplify theory as a liberatory practice bell hooks to liberate theory as a practice of creativity Foucault in and of itself The revised updated and expanded second edition featuring 25% new material still argues for theoretical writing as a genre of creative writing a way of engaging in the art of the sentence the art of making sentences that make trouble that desire to make radical changes in very fabrication of social reality Features Critical keywords bolded for easy reference Expanded footnotes with detailed discussion

Moura, 2022-07-29 This collection explores the notion of reframing as a framework for better understanding the multi agent and multi level nature of the translation process generating new conversations in current debates on translational agency authority and power The volume puts forward reframing as an alternative metaphor to traditional conceptualizations and descriptions of translation which often position the process in such terms as transformation reproduction transposition and transfer Chapters in the book reflect on the translator figure as a central agent in actively moving a translated text to a new context and the translation process as shaped by different forces and subjectivities when translational agency comes into play The book brings together cross disciplinary perspectives for viewing translation through the lens of agents drawing on a wide range of examples across geographic settings historical eras and language pairs The volume integrates analyses from the translated texts themselves as well as their paratexts to offer unique insights into the different layers of mediation in translation and the new frames created for those texts This book will be of interest to scholars in translation studies comparative studies reception studies and cultural studies *Women, Power and the Economy* Inca Petra

Kuenkel, 2025-07-23 In the complex landscapes of multiple global crises the book unfolds as a panoramic journey through the intricate pathways of women and power weaving a tapestry that transcends crises and ushers in a transformative vision of a just world Against the backdrop of a patriarchal history steeped in autocratic power practices the author urges us to recognize understand and redefine power in its myriad forms for collective feminist power practices With meticulous analysis she unveils challenges posed by the patriarchal backlash exposing the normalized male definitions of power and the societal structures that sustain pathological power relationships The narrative of the book intertwines power economy and patriarchy laying bare the many traps for complicity with the patriarchal systems The author advocates for a paradigm shift emphasizing the role of female memories and genealogies as foundational elements for a collective feminist practice Power in this context emerges not as a force for dominance but as the ability to make a positive impact flourishing in the rich diversity of differences The envisioned future is one where societies thrive on commons planetary care feminist economies and pluriversality The narrative charts a course toward a feminist democracy rooted in nurturing the planet and safeguarding future generations Governance and networks stand as keystones in shaping these utopian landscapes where pioneers and movements play vital roles in sculpting the contours of tomorrow The book offers practical tools for strengthening collective feminist practices that can restructure power pathologies It unfolds as a captivating vista where the echoes of the past
