We The Anarchists A Study Of The Iberian Anarchist Federation Fai 1927 1937:

We, the Anarchists! Stuart Christie, 2000 At last A serious examination of the legendary FAI And hence by necessity a history and analysis of the organised anarchist movement in Spain and its relationship with the wider labor movement By far the best book on the subject Christie is ruthless in his examination from an anarchist perspective of the theory and practice of this loose knit group of anarchist militants Required reading for everyone who not only wants to understand the history of Spanish anarchism but for those that might want to see some viable form of anarchist organisation in the 21st century

Transatlantic Anarchism during the Spanish Civil War and Revolution, 1936-1939 Morris Brodie, 2020-04-08 Between 1936 and 1939 the Spanish Civil War showcased anarchism to the world News of the revolution in Spain energised a moribund international anarchist movement and activists from across the globe flocked to Spain to fight against fascism and build the revolution behind the front lines Those that stayed at home set up groups and newspapers to send money weapons and solidarity to their Spanish comrades This book charts this little known phenomenon through a transnational case study of anarchists from Britain Ireland and the United States using a thematic approach to place their efforts in the wider context of the civil war the anarchist movement and the international left *Rethinking Anarchy* Carlos Taibo, 2018-12-18 This is the first book by Carlos Taibo a prolific and well known social theorist in Spain to be translated into English Published in it s original language in 2013 *Rethinking Anarchy* functions as both an introduction to and in depth interrogation of anarchism as political philosophy and political strategy Taibo introduces the basic tenets of anarchism while also diving into and unpacking the debates around each of them producing a book that should appeal to both beginners and readers with extensive knowledge of the book s theme Topics touched upon include liberal versus direct democracy the nature of the state and its relationship to capitalism the role of autonomous and anticapitalist social spaces and how anarchism relates to feminism environmentalism antimilitarism and other struggles *The Third Revolution* Murray Bookchin, 2005-06-08 This major four volume project is a comprehensive account of the great revolutions that swept over Europe and America during the past three centuries Throughout the emphasis is on the popular movements that propelled the great revolutions to radical peaks the little known leaders who spoke for the people and the liberatory social force to which the revolutions gave rise The four volumes of *The Third Revolution* form a dramatic ensemble that encompasses the hopes and social conflicts of past eras as well as prospects for the coming century This final volume focuses on the revolutions that took place in Germany and Spain in the early 1900s **Studies in the Historical Jesus** Justin J. Meggitt, 2023-08-29 *Studies in the Historical Jesus* *Anarchy Miracles and Madness* is a selection of key essays on the historical figure of Jesus published over the last fifteen years by Justin J Meggitt Each addresses a central question in the study of Jesus and his context from the role of myth in the creation of traditions about him and the historicity of his miracles to the problem of his politics and the reasons for his execution The collection brings fresh perspectives and new data to bear

on enduring debates and demonstrates the value of history from below in making sense of the historical Jesus and the world that made him

Black flags and social movements Dana M. Williams, 2017-11-17 Anarchism may be the most misunderstood political ideology of the modern era and one of the least studied social movements by English speaking scholars *Black flags and social movements* addresses this deficit with an in depth analysis of contemporary anarchist movements as interpreted by social movement theories and political sociology Using unique data gathered by anarchists themselves Williams presents longitudinal and international analyses that focus upon who anarchists are and where they may be found Social movement ideas including political opportunity new social movements and social capital theory are relevant and adaptable to understanding anarchist movements Due to their sometimes limited numbers and identities as radical anti authoritarians anarchists often find themselves collaborating with numerous other social movements bringing along their values ideas and tactics

Means and Ends Zoe Baker, 2023-07-25 An expansive and accessible account of anarchism as a theory of practice A new in depth look at the revolutionary strategy of anarchism in Europe and the United States between 1868 and 1939 Zoe Baker creator of a popular Youtube series on radical history and political theory brings her trademark clarity and accessibility to this debut book Cutting through misperceptions and historical inaccuracies she shows how the reasons anarchists gave for supporting or opposing particular strategies were grounded in a specific theoretical framework a theory of practice The consistent and coherent heart of anarchism Baker shows is the understanding that as people engage in activity political or otherwise they simultaneously change the world and themselves Put another way the means that revolutionaries propose to achieve social change have to involve forms of activity through which people can become individuals capable of overthrowing capitalism and the state as well as building a better society Behind this simple premise that anarchist ends can only be achieved through anarchist means lies a wealth of fascinating historical and theoretical detail that Baker presents clearly and engagingly

The CNT in the Spanish Revolution José Peirats, 2001 This third volume outlines the history and role of the anarcho syndicalist Labour Union in this Spanish Revolution and Civil War 1936 1939

1956 and All that Keith Flett, 2007 Through the Smoke of Budapest 50 Years On The February 2006 Conference of the London Socialist Historians Group was held at the Institute of Historical Research in central London one of a series of such conferences over the previous ten years Assembled were a modest group of academics and activists come to mark the 50th anniversary of the events of 1956 and to do so in a particular way Firstly by presenting new historical research on the questions under review rather than trotting out tired orthodoxies Secondly by linking historical inquiry to political activism It was queried why such a conference was held in February 2006 rather than in the autumn and the answer was a simple one To intervene historically in the debates of the year by setting a socialist historical agenda for doing so The opening plenary heard from Sami Ramidani an Iraqi exile now lecturing at a British University from Stan Newens who had been present at the protests in 1956 and from Nigel Wilmott the letters editor of the Guardian but

here speaking about Hungary The flavour was one both of historical recall of the events of 1956 and of contemporary political parallels Indeed during this session news came through via text message that the left wing MP George Galloway had been detained in a Cairo jail overnight and an emergency protest called at the Egyptian Embassy for later in the day The next two sessions focused on the key moments of autumn 1956 Hungary and Suez but again with new research examining their wider significance Mike Haynes looks at the origins of the Hungarian revolt in terms of workplace politics while Anne Alexander reviews the impact that Suez had on Nasser TM s reputation within the Arab world and Arab nationalist politics In the afternoon there was a widening of the focus One session examined the impact of the events of 1956 on left wing organisation and in particular the orthodox Communist or Stalinist tradition Terry Brotherton took a fresh look at the impact of 1956 on the Communist Party of GB while Toby Abse focused on how the events of that year worked their way through in the largest of the Western European CPs the Italian Alan Woodward examined how the crisis of Stalinist politics opened new possibilities for libertarian left wing ideas The other focused on the rise of a new left as a result of the crisis of 1956 Paul Blackledge examined the development of the theory of socialist humanism by E P Thompson and others as an alternative to Stalinism Neil Davidson examined the ideas of a forgotten left wing thinker from this period Alisdair Macintyre while Christian Hogsberg reviewed the influence of an existing Trotskyist theorist CLR James around the events of 1956 Of course the conference could not hope to cover the huge range of possible historical issues arising from the 50th anniversary of 1956 The beginnings of the consumer society and the age of affluence the birth of youth culture and rock TM n TM roll British nuclear tests and the origins of CND and campaigns against the bomb the new theatre marked by look back in anger TM In an introduction the editor Keith Flett reviews some of these wider trends However the research agenda proposed by the conference was and remains an important one

Del franquismo a la democracia, 1936-2013 Ismael Saz, Manuel Pérez Ledesma, 2015 Desde 1936 hasta nuestros días España ha experimentado dos regímenes antagónicos El primero de ellos la dictadura franquista se erigió con el objetivo de acabar para siempre con el liberalismo y la democracia El segundo la monarquía parlamentaria se construyó desde la voluntad de los españoles de recuperar los valores ilustrados y democráticos Este volumen estudia los procesos históricos a través de los cuales las diversas culturas políticas configuraron se adaptaron o se opusieron a dichos sistemas políticos al tiempo que experimentaron transformaciones y continuidades Su estudio contribuye a comprender los marcos culturales y políticos básicos de la actual sociedad española
