Renfro-Michel, 2016-01-08. This is the first comprehensive research and practice based guide for understanding and assessing supervision technology and for using it to improve the breadth and depth of services offered to supervisees and clients. Written by supervisors for supervisors, it examines the technology that is currently available and how and when to use it. Part I provides a thorough review of the technological, legal, ethical, cultural, accessibility and security competencies that are the foundation for effectively integrating technology into clinical supervision. Part II presents applications of the most prominent and innovative uses of technology across the major domains in counseling along with best practices for delivery. Each chapter in this section contains a literature review, concrete examples for use case examples and lessons learned. Requests for digital versions from the ACA can be found on [wiley.com](#).
