Victorian Targeting Handwriting Tricia Dearborn, Jo Ryan, Stephen Michael King, 2004 Targeting Handwriting Victoria Year 6 Student Book focuses on developing students' own styles while emphasising fluency and legibility. The book includes mature real world applications e.g. developing a signature and tips for note taking. Teaching pages with two sets of copying lines for reinforcement and extra practice. A section on calligraphy. The Targeting Handwriting Years 3-6 Student Books have been designed to make learning cursive handwriting as easy as possible for students. New skills are introduced sequentially so that students build on skills one by one and aren't called on to use skills that haven't been introduced yet. Wherever possible students copy words underneath models so that left handers aren't disadvantaged and practice of numerals and punctuation is integrated into the writing activities. The books also encourage and support student self assessment.

Lighting the Literacy Fire Sean David Burke, 2019-08-05 This book covers three interdependent areas: 1 Readiness for learning, 2 Teaching language skills and 3 Learning together. These provide a foundation for teaching that can bring our children into a more creative relationship with their own language. Assessment and Data Systems in Early Childhood Settings Claire McLachlan, Tara McLaughlin, Sue Cherrington, Karyn Aspden, 2023-01-01 This book describes the use of data systems in early childhood settings from birth to eight years for the purposes of assessment, evaluation and curriculum planning. It presents an international collection of research examining ways in which teachers and researchers have revisited notions of what constitutes effective assessment, revised ways in which they assess children's learning and development and use the knowledge gained for curriculum planning. It offers insights into contemporary research on how teachers and children are engaging with data systems as part of effective assessment and how these approaches influence practice. This book presents recent theorizing and examples of research which have investigated innovative approaches to assessment using data systems in early years settings. It represents both early childhood and junior primary contexts and includes research which focusses on teachers' perspectives and reflections on use of data systems. It also examines research which reflects on what children gain from being involved in these data systems. Literacy Gordon Winch, 2006 Literacy: Reading, Writing and Children's Literature 3e provides a comprehensive and accessible introduction to the principal literacy theories while maintaining a focus on the practical application of literacy skills to everyday teaching. Classroom tested, this leading text for English Education remains reader friendly, practical, current and unique in its inclusion of children's literature.
