OpenLayers 2.10 Beginner's Guide Erik Hazzard, 2011-03-18 Create optimize and deploy stunning cross browser web maps with the OpenLayers JavaScript web mapping library *My Nexus One* Craig James Johnston, 2010-11-04 This is the eBook version of the printed book Step by step instructions with callouts to Nexus One photos that show you exactly what to do Help when you run into Nexus One problems or limitations Tips and Notes to help you get the most from your Nexus One Full Color Step by Step Tasks Walk You Through Getting and Keeping Your Nexus One Working Just the Way You Want Learn how to Get started quickly and make the most of Nexus One s Android software and advanced hardware Learn the basics of Google Voice including automated transcription Set up your personal and work email Send and receive text and multimedia messages Communicate with contacts including Facebook Gmail or Exchange contacts Create and manage appointments and sync them with Google Calendar Play music and videos search YouTube and upload your own videos Capture store and share photos Connect to the Internet Bluetooth devices and your company s VPN Browse the Web with the Google Chrome browser Save time with powerful productivity shortcuts and customizations Find choose install and work with new Nexus One apps Keep your Nexus One up to date reliable and running smoothly **Artificial Intelligence in Architecture and the Built Environment** Michal Sourek, 2025-01-22 Imagine if every architect had an apprentice who could consistently observe and understand their intentions take over routine tasks and monitor technical environmental and economic constraints This apprentice would continually improve freeing the architect to concentrate on truly creative work This book outlines a plan to turn this vision into reality It evaluates the development of artificial intelligence from its inception to the present focusing on the last two decades of applying AI in architectural design and planning the current state of architectural practice is also examined Integrating architecture computer science AI robotics economics law neurobiology and philosophy the vision is built on three key premises i authentic poetic creativity that transcends parameterization and algorithmizing ii innovative learning strategies and training approaches not yet applied concerning architectural design and iii the convergence of architecture s inherent spatiality with virtual reality technology and new theories of human thinking and intelligence poised for implementation in machine learning *Digital in Underwater Cultural Heritage* Guzden Varinlioglu, 2016-04-26 One can argue that academia has always existed in an information age however as the general public gains access to ever more advanced systems it can be claimed that areas of academia require updating to maintain vitality in today s world When nautical archaeology produces inspiring reports they are often at the hand of large budgets rather than general day to day dissemination This book proposes using state of the art low budget digital technology from the outset of surveys so that data may be recorded analysed and disseminated with seamless efficiency and great flair while employing progressively less decontextualized means Further it conveys a simple methodology that allows for data collection by teams of volunteer divers Big data rapid analysis and cross reference requirements have created a shift towards the need for advanced digital means

particularly relating to underwater archaeology where survey time is limited This book logs several years of studies which respect in situ preservation where the limits of technology were stretched to the cutting edge using novel collection methods to populate custom built numerical and visual databases generating 2D and 3D digital models and further creating a Virtual Reality museum These advances not only propel the function of academia but also promote the image of archaeology in an age where visualisation matters
