**Everybody's Baby** Lydia Netzer, 2014-06-03 Jenna and Billy are in love He s an app developer a hyper plugged in citizen of the internet with a big Scottish family and winning smile She is a yoga teacher tuned in to the vibes of the spiritual universe who was abandoned by her mother as an infant and orphaned by her father s recent death When they meet it s electric and it is no time before they are married and eager to start their own family But when they can t get pregnant Billy devises a plan they would raise funds for their in vitro fertilization on Kickstarter offering donor perks like cutting the cord naming the baby and catching the baby when it takes its first steps The good news is that they make their fundraising goal get pregnant and have a baby The bad news is that their marriage begins to fall apart when they have to deliver on all those perks It s hard enough to survive delivering a baby without a performance artist making a documentary of the cord cutting It s difficult enough to get baby to sit up and smile for a six month portrait without a local politician taking up half the lens What does it mean to be owned by the internet Lydia Netzer s *Everybody s Baby* explores how relationships grow and fail in public and private life the hazards of living in the cloud and the nature of love online and off *Aligning for Advantage*

Thomas C. Lawton, Jonathan P. Doh, Tazeeb Rajwani, 2014-02-27 In today s multipolar world economy strategic alignment is a key determinant of competitive advantage Coca Cola Danone Diageo DuPont Lufthansa and Tata are some of the companies that strive for a pragmatic approach to balancing competitive strategies with political and social obligations *Aligning for Advantage* argues that to build and sustain corporate success companies must synchronize business objectives and market positions with political and regulatory activism and social and environmental engagement Moreover to be credible and realizable these external market and nonmarket strategies need to be equally attuned with corporate vision values and culture The book advances a managerial process and conceptual framework for aligning corporate strategy In some cases alignment may mean deep strategically embedded partnerships with governments NGOs or other stakeholders In others alignment may take the form of looser temporary collaborations with outside organizations No matter the approach the relationship between nonmarket and market strategies should be deliberate and genuine not accidental or artificial Truly aligned strategies should reconcile and modulate sometimes conflicting external demands in a way that is appropriate for the corporation s geographic and market positions In the end companies must leverage their overall nonmarket strategy as a source of competitive advantage *Mayhem at a Halloween Wedding*

Emmeline Duncan, 2025-07-29 It s Halloween year round in Elyan Hollow Oregon where Bailey Briggs sells the latest tomes of frights and fears at the bustling Lazy Bones Books when she s not uncovering deadly secrets and mysteries that haunt the town There s more to celebrate this Halloween when Bailey s college friend Raven prepares to walk down the aisle in spooky seasonal style As a bridesmaid Bailey is overwhelmed helping with wedding preparations while the annual holiday festival scares up business for her bookstore She also finds herself playing peacekeeper between fellow bridesmaids Colby and Ivy whose arguments add even more conflict to

the already simmering tensions within the wedding party between the groom's traditional family and the bride's bohemian parents. Trying to ease stress and enjoy the spirit of the season, Bailey arranges the bachelorette party on the night of the Halloween parade. Everyone agrees to join in the festivities and dress up in costume. But running into several people dressed as the Grim Reaper turns out to be a bad omen. An explosion rocks the route causing a panic. When the smoke clears, Ivy is found dead, believed to be murdered, and Colby is questioned by police after several witnesses report the very public clashes between the two bridesmaids. Narrowing down the list of suspects to prove Colby's innocence means Bailey will have to find a motive that drove a killer and keep her friend's wedding bells from becoming funeral knells. **Law on Display** Neal

Feigenson, Christina Spiesel, 2011-05-13 Visual and multimedia digital technologies are transforming the practice of law: how lawyers construct and argue their cases, present evidence to juries, and communicate with each other. They are also changing how law is disseminated throughout and used by the general public. What are these technologies? how are they used and perceived in the courtroom and in wider culture, and how do they affect legal decision making? In this comprehensive survey and analysis of how new visual technologies are transforming both the practice and culture of American law, Neal Feigenson and Christina Spiesel explain how and why legal practice moved from a largely words-only environment to one more dependent on and driven by images, and how rapidly developing technologies have further accelerated this change. They discuss older visual technologies such as videotape evidence and then current and future uses of visual and multimedia digital technologies including trial presentation software and interactive multimedia. They also describe how law itself is going online in the form of virtual courts, cyberjuries, and more, and explore the implications of law's movement to computer screens. Throughout *Law on Display*, the authors illustrate their analysis with examples from a wide range of actual trials.
