Tackling Americas Toughest Questions Alternative Media Interviews:

Tackling America's Toughest Questions Francis Boyle, 2010-04-28 Francis A Boyle may be one of the few international lawyers to have been extensively interviewed by most of the world's major media both in the United States and abroad in testament to the stature of his clients the significance of events in which he has played a role and to his worldwide reputation for combining international legal expertise with keen political insight Over a long professional career his expertise has extended to a wide range of issues related to war and peace conflicts in the Middle East Bosnia and elsewhere nuclear disarmament biowarfare and the self determination rights of oppressed peoples On September 13 2001 Boyle's interview on The O'Reilly Factor FOX News was explosive There he stood up to O'Reilly's drumbeat for war in reaction to the 9/11 terrorist attack lucidly outlining the politico legal case against war and speaking directly to the American people It marked a turning point in his relations with the mainstream American media The Boyle interviews in this collection reflect the kind of authoritative objective insight now available in the United States primarily through its alternative media Here Francis Boyle addresses hard hitting questions on the many troubling aspects of US policy since September 11 2001 the war in Afghanistan from the initial US military intervention to its 2008 escalation the war on terrorism Iraq Iran Guantanamo the Patriot Act impeachment torture the anthrax attacks and domestic infringements of the constitution His insight on domestic and international events in the framework of both law and politics provides a comprehensive orientation to understanding the most significant events of the past decade

Death of a Nation George Grundy, 2017-08-01 Was 9/11 engineered and designed to allow the Bush administration to hijack America's democracy Did fear mongering allow the US government to convince the American public that conducting huge expensive wars in Afghanistan and Iraq was a necessary counter to defeat fabricated culprits in the Middle East Was this all a plot to induce a financial boom that robbed the middle class of its wealth and brought the world to its knees in 2008 Examining the key players within America's government as well as the states that supported and carried out the attacks Death of a Nation attempts to reveal that 9/11 was falsely portrayed by the Bush administration and in fact carried out by elements within the United States government and military to further their own geopolitical and financial interests Death of a Nation provides a searing indictment of the role now played by America in global affairs and warns that with a broken society and body politic the world is seeing the rise of one of the most overtly fascist nations since the Second World War creating profoundly disturbing implications for the future of humanity A generation is coming of age that doesn't remember 9/11 happening and knows of no world but this We can't allow this to be the new normal Death of a Nation will change your view of the events of 9/11 and force you to question America's self appointed position as leader of the free world
