*Snow Leopards in Nepal* Pavel Kindlmann, 2022-10-01 Snow leopard *Panthera uncia* is an endangered species and its population size is steadily declining The main threats to the snow leopard include illegal trade conflict with locals human snow leopard conflict lack of conservation awareness and policy and climate change To avoid its extinction we badly need a good knowledge of its ecology distribution and population dynamics including interactions with its prey which will take into account various scenarios of changes in climate and human impact on snow leopard This book aims to put together a considerable amount of unpublished data collected by the co author of most of the chapters Bikram Shrestha which might be useful for other researchers working on snow leopard In addition researchers might find it useful to have a key for determining the diet of snow leopard based on remnants of its food in its scats Last but not least based on the difficulty we experienced trying to compare and combine different sets of results we propose a general methodology for collecting data Thus this book is not an all encompassing compendium but an attempt to fill some gaps in the literature and to show how to publish new data on snow leopard in a useful and workable way The first part describing the main features of snow leopard and its main prey ecology is followed by a comprehensive review of data available on its abundance and threats to its survival The third most extensive part the substance of the book presents new data from 15 years of intensive camera trapping combined with scat sampling These data are analyzed by means of advances GIS and genetic techniques which

yields a large amount of conservation implications The purpose of this book is to provide a tool for both environmental managers and researchers to find quickly what is known about this species for conservation planning and for an effective protection of snow leopard However enthusiasts interested in wild cats may welcome the book too **Just A Girl Who Loves Snow Leopards** Snow Leopard Gifts Publishing,2019-11-13 A Beautiful RULED journal notebook for Snow Leopard lovers best gift item to gift anyone who loves snow leopards and is very fond of them Features 1 Conatins 120 Pages of Ruled sheets 2 Beautiful Matte finish cover3 High Quality interior 4 A beautiful cover ofcourse **The Snow Leopard** Peter Matthiessen,1992 Snow Leopard ,2020 **Vanishing Tracks** Darla Hillard,1989 SOS Jill Bailey,1991 Describes the effects of encroaching civilization on the snow leopard of the Himalayas and efforts to save the animals **Saving the Ghost of the Mountain** Sy Montgomery,2009 A pale spotted almost cloud like coat makes the snow leopard uncannily invisible in its rocky mountain habitat Author Sy Montgomery and photographer Nic Bishop accompany conservationist Tom McCarthy and his team as they travel to Mongolia s Altai Mountains to gather data about snow leopard populations in an attempt to save this endangered species **The Snow Leopard** Peter Matthiessen,1996 An account of the author s two hundred fifty mile journey on foot from Kathmandu Nepal to the Crystal Mountain in Tibet in search of the Himalayan blue sheep the rare snow leopard and distances of the spirit
