Keene,2022 In The Literacy Studio the author reconsiders our most basic assumptions about the traditional reader s and writer s workshop approach and structure The author proposes an alternative workshop structure one teachers can adjust amend tinker with A literacy block that is flexible enough to allow teachers to be directly responsive to your kids needs She addresses planning scheduling conferring differentiating record keeping and reflecting so that students can build their knowledge of reading by writing and vice versa She discusses how to maximize students choice in how they spend their time and engagement as independent readers and writers The Literacy Studio takes teachers and children beyond the workshop structures that we ve used for many years by maximizing time for active learning because reading and writing instruction is integrated *High Definition* Sara Holbrook,Michael Salinger,2010 When kids envision a word as if it were a real person

with a unique voice and personality they forever imprint the meaning of the word into their memories Vocabulary lessons become anything but dull and still blend seamlessly into your writing objectives Veteran teacher authors Sara Holbrook and Michael Salinger offer a powerful formula for getting even the most reluctant kids into the act Well chosen words Collaborative discussion Genre writing Performance Strong vocabulary Students are first given a choice of vocabulary words then collaborate with their peers in small group brainstorming discussions that lead to writing exercises in a variety of genres Finally they share their work aloud building community and understanding throughout the classroom Publisher s description No More Taking Away Recess and Other Problematic Discipline Practices Gianna Cassetta,Brook

Sawyer,2013 Frustrated by ongoing difficult student behavior You re not alone classroom management issues are a leading cause of teacher burnout But there is a solution No More Taking Away Recess and Other Problematic Discipline Practices shows how to promote good behavior address interruptions and keep everyone moving forward Management and control are not the same write teacher and school leader Gianna Cassetta and noted researcher Brook Sawyer If trying harder to exert control is sapping your energy watch as they show how to transition away from the roles of disciplinarian or goody dispenser

and toward an integrated professionally satisfying model for classroom management You ll find everything you need to get going including the rationale for abandoning rewards and consequence tactics research on more developmentally appropriate and efficient management a plan that integrates instruction and management to decrease interruptions specific strategies for addressing misbehavior and refocusing on learning goals ways to analyze problematic behaviors and help students connect and stay motivated Ease your frustration with classroom management and return dozens of hours lost each year to addressing problematic behaviors Take a page from No More Taking Away Recess and Other Problematic Discipline Practices and turn your classroom into a community that helps students become their best selves and helps you rediscover the joy of teaching About the Not This But That Series No More Taking Away Recess and Other Problematic Discipline Practices is part of the Not This But That series edited by Nell K Duke and Ellin Oliver Keene It helps teachers examine common ineffective classroom practices and replace them with practices supported by research and professional wisdom In each book a practicing educator and an education researcher identify an ineffective practice summarize what the research suggests about why and detail research based proven practices to replace it and improve student learning Read a sample chapter from No More Taking Away Recess and Other Problematic Discipline Practices **No More Telling as Teaching** Cris Tovani,Elizabeth Birr Moje,2017 Congratulations to Cris Tovani recipient of ILA s Adolescent Literacy Thought Leader Award 2017 The truth is when we rely on lecture in an effort to cover content we re doing students a disservice Although lecture can be engaging and even useful lecture alone cannot give kids real opportunities to learn retain and transfer the disciplinary ideas skills and practices we re trying to teach Cris Tovani and Elizabeth Moje help us translate the time spent lecturing into powerful learning experiences where students interact and inquire into topics that matter Their research based alternatives help you create the conditions for engaging relevant work that s inherently interesting and sparks critical thinking Elizabeth Moje helps us understand the latest research on how people learn and shows powerful evidence that teachers can increase student learning with more purposeful student participation Veteran teacher and instructional coach Cris Tovani provides a practical model for instruction that s backed by the current research and puts student engagement at the center of your teaching Her examples of problem based learning activities include connections to national standards and topics that matter outside the classroom walls Together Elizabeth and Cris make a convincing argument that when we minimize teaching as telling and transition to planning for kids to do the work student engagement soars and so does learning The Teacher You Want to be Ellin Oliver Keene,Matt Glover,2015 This book is about bringing the education we want for our own children to all It is focused on a set of strongly held beliefs that drive the actions of educators every day Each chapter of the book is focused on a single belief and invites readers to consider what they can do to help children attend schools based on the true authentic expressions of their teachers beliefs Contributions include essays by many prominent educators including Sir Ken Robinson Deborah Meier and Thomas Newkirk Please click on the contents tab below

for a list of all 18 contributors In 2012 a diverse group of American educators made a pilgrimage to Italy to observe instruction at a Reggio Emilia school Their observations resulted in a desire to articulate a set of belief statements about education This book is based on those beliefs With this collection the authors and editors hope to create a space in the current education conversation for teachers to know that they can teach in a way that is aligned to their beliefs

Comprehending Problem Solving Arthur Hyde, 2014-11-13 Nationally recognized mathematics educator and author Art Hyde takes a culminating look at his thirty years of experience working with teachers and students to answer the question In the Common Core era what are the most successful practices for helping children solve mathematical problems with deep understanding The key he argues is providing positive experiences with meaningful mathematics centered around rich activities When students are given the opportunity to wrestle with appropriately difficult activities based on real life situations and intriguing contexts they become excited about the math and willingly tackle problems with more zeal and accuracy than ever before The result is deeper understanding of the content and greater skill at doing mathematics Art draws on extensive research on how children learn and the relationship between reading and mathematical comprehension His braided model of problem solving in which cognition language and mathematics are woven together intentionally forms the basis of math activities that he and numerous elementary teachers around the country have used Look into the classrooms of some of these math teachers in this book as they share their success stories illustrating the rewards of using these activities to foster deep mathematical understanding Arthur Hyde is a professor of mathematics education at National Louis University where he received its Excellence in Teaching award While teaching high school mathematics in Philadelphia he developed a variety of creative methods for teaching math He also obtained a doctorate in curriculum and instruction from the University of Pennsylvania where he later directed its teacher education programs He has worked frequently in elementary classrooms conducting extensive professional development programs on teaching mathematics and math problem solving in Chicago and its surrounding school districts His previous books include *Best Practice* Fourth Edition coauthored with Steven Zemelman and Harvey Daniels *Understanding Middle School Math* and *Comprehending Math To Understand* Ellin Oliver Keene, 2008 *To Understand* proposes a model that incorporates all aspects of literacy instruction and describes how teachers can focus on what matters most Keene shows that when teachers target the most essential content they can help every student engage more deeply with texts and discover a passion for reading and learning You ll learn to draw out students intellectual interests and spark improvements in their literacy learning and comprehension even among students who struggle You ll see that teaching the Outcomes and Dimensions of Understanding can help readers exceed expectations and also help broaden your vision of their capacity and energy for learning *No More Mindless Homework* Kathy Collins, Janine Bempechat, 2017 While schools around the nation reconsider homework policies teachers students and parents continue to ride the wave of either too much too little too easy or too hard homework assignments In the expectation that

children complete homework sometimes they are assigned mindless busy work Kathy Collins and Janine Bempechat take on the stormy topic of homework by re focusing the conversation from to assign or not to assign to how we can design engaging homework that harnesses children s interests and fosters their learning Janine and I give you a research based rationale and a more expansive view of homework that enables you to envision meaningful alternatives to worksheets packets and tasks that simply occupy children s afterschool time Kathy writes As Janine notes More than just getting it done homework can be an opportunity to foster positive beliefs about learning establish meaningful habits of mind and forge an academic identity With strategies for adding choice differentiation relevance and authentic feedback into homework assignments you ll discover how to reimagine homework in ways that promote lifelong learning habits in your students
