Timelines Of History:

Timelines of History DK,2018-04-03 Humans are a recent event in the planet's history but we've wasted little time in making our mark. The range of our achievements has created a rich and elaborate heritage that we have the unique ability to capture and record meaning we can look back and learn from the road traveled. *Timelines of History* begins with the emergence of our earliest African ancestors and takes the reader through the history of cultures and nations around the world to arrive at the present day, the beginning of a new millennium. A dynamic layered timeline zooms in and out of time speeding up or slowing down to keep pace with the size and scope of events. **Timelines of History**, 2015 Previously published as *First American* edition in 2011. Visual Timelines in History Patricia Wooster, Kremena T Spengler, **Time Atlas** Robert Hegarty, 2017-08 Travel with us through time and join us on a chronological journey charting a brief history of the world and its inhabitants. From dinosaurs to DNA and from reed boats to rockets we celebrate the landmarks and inventions that have made our planet what it is today and pose the question where do we go from here. *Cartographies of Time* Daniel Rosenberg, Anthony Grafton, 2013-07-02 Our critically acclaimed smash hit *Cartographies of Time* is now available in paperback. In this first comprehensive history of graphic representations of time authors Daniel Rosenberg and Anthony Grafton have crafted a lively history featuring fanciful characters and unexpected twists and turns. From medieval manuscripts to websites *Cartographies of Time* features a wide variety of timelines that in their own unique ways curving crossing branching defy conventional thinking about the form. A fifty four foot long timeline from 1753 is mounted on a scroll and encased in a protective box. Another timeline uses the different parts of the human body to show the genealogies of Jesus Christ and the rulers of Saxony. Ladders created by missionaries in eighteenth century Oregon illustrate Bible stories in a vertical format to convert Native Americans. Also included is the April 1912 Marconi North Atlantic Communication chart which tracked ships including the Titanic at points in time rather than by their geographic location alongside little known works by famous figures including a historical chronology by the mapmaker Gerardus Mercator and a chronological board game patented by Mark Twain. Presented in a lavishly illustrated edition *Cartographies of Time* is a revelation to anyone interested in the role visual forms have played in our evolving conception of history. **Visual Timelines in History** Kremena T. Spengler, Patricia Wooster, Mary Englar, 2012-01-01 Take a look at important moments in history with fun and fact filled timelines. Charming art and interesting facts make for fun stops along the way as readers eagerly follow a single timeline throughout the book. A fascinating visual journey. Covered are wars, scientific discoveries, art and architecture, births, deaths and other major milestones. Juxtaposed with the timeline on the same spread are narratives and features on broader aspects of history. As an example, one spread on Early Civilizations 5000-1500 BCE has the timeline on the right and describes the Egyptian and Minoan civilizations in general on the left. Additionally, box features take a close look at Egyptian Pyramids and a Neolithic Scottish settlement dating from the same period. The second section of the book is dedicated to individual countries and continental regions.
