We also trust AI with matters of life and death on the road and in our hospitals. But how smart is AI really and how does it solve problems, understand humans and even drive self driving cars? Shane delivers the answers to every AI question you've ever asked and some you definitely haven't. Like how can a computer design the perfect sandwich? What does a robot generated Harry Potter fan fiction look like? And is the world's best Halloween costume really Vampire Hog Bride? In this smart, often hilarious introduction to the most interesting science of our time, Shane shows how these programs learn, fail and adapt and how they reflect the best and worst of humanity. *You Look Like a Thing and I Love You* is the perfect book for anyone curious about what the robots in our lives are thinking.
