how this convergence has created new marketing opportunities for your brand **Financial Management in the Sport Industry** Matthew T. Brown, Daniel A. Rascher, Mark S. Nagel, Chad D. McEvoy, 2016-12-15 Financial Management in the Sport Industry provides readers with an understanding of sport finance and the importance of sound financial management in the sport industry. It begins by covering finance basics and the tools and techniques of financial quantification using current industry examples to apply the principles of financial management to sport. It then goes beyond the basics to show how financial management works specifically in sport how decisions are made to ensure wealth maximization. Discussions include debt and equity financing, capital budgeting, facility financing, economic impact, risk and return, time value of money and more. The final section focuses on sport finance in three sectors of the industry: public sector, sports, collegiate athletics and professional sport, providing in-depth analysis of financial management in each sector. Sidebars, case studies, concept checks and practice problems throughout provide practical applications of the material and enable thorough study and practice. The business of sport has changed dynamically since the publication of the first edition and this second edition reflects the impact of these changes on financial management in the sport industry. New to this edition are changes to reflect the global nature of sport with, for example, discussions of income tax rates in the Premier League, expanded material on the use of spreadsheets for financial calculations, a primer on accounting principles to help students interpret financial statements, a valuation case study assignment that takes students step by step through a valuation, a new stadium feasibility analysis using the efforts of the Oakland Raiders to obtain a new stadium, a new economic impact example focusing on the NBA All Star game and much more. Walkoffs, Last Licks, and Final Outs Bill Chuck, Jim Kaplan, 2008 Many of baseball's most memorable moments come from endings otherwise known as last licks. But even the most celebrated last licks have aspects fans are not aware of. Indeed there is no end to the anecdotes, humor and trivia associated with last licks. Some of the final acts described in this book include: Summary and analysis of some of the great postseason finishes including Bobby Thompson's Shot Heard Round the World in the 1951 playoffs, Dave Roberts' steal of second base in Game Four of the 2004 ALCS. A comprehensive list of every perfect game thrown in Major League History and analysis of the most impressive streaks including Joe DiMaggio's 56 game hitting streak, Darren Lewis' streak of 369 errorless games. Great last moments in some of the most famous stadiums in history including Old Comiskey, Crosley Field and the Polo Grounds. Eulogies and career statistics for ballplayers who passed before their time including Urban Shocker, Roberto Clemente and the recent tragedy of Josh Hancock. Heroic and not so heroic endings to Hall of Fame careers including Rogers Hornsby's career ending walk off grand slam in 1922, Ted Williams' scandalous final at bat in 1960, a towering home run to center field that ended when Williams refused a curtain call for the 11 000 fans in attendance. Contains box scores, line scores, career statistics and photos for some of the greatest games and players in MLB history. A must have for any baseball library.
