Shape Diet** David Heber, 2004-03-16 From one of today's most respected diet and nutrition experts a 14 day weight loss plan designed to help you change your shape for life using a new breakthrough personalized protein prescription that has worked for thousands of his patients. Dr. David Heber's groundbreaking book, *What Color Is Your Diet*, introduced us to the Color Code, building a healthy diet based on colorful fruits and vegetables. His new book, *The L.A. Shape Diet*, combines the sound nutritional basis of the Color Code with his newest research from the UCLA Center for Nutrition which shows you how to analyse your body shape, personal protein needs and metabolism and not only lose weight but also change your body shape. This has major appeal to the millions of Americans who may be able to lose weight but are still dissatisfied with the look of their bodies and end up gaining the weight back anyway. Dr. Heber maintains that everyone is born with a particular shape and that this shape makes a huge difference in how you should approach weight loss. Dr. Heber teaches the difference between the shape you can change and the shape you cannot and how to do this with the right amount of dietary protein. Based on over 3500 measurements made by his researchers at UCLA, Dr. Heber has come up with tables that estimate how

much protein you need in your diet at a given height and weight and how many calories you should consume every day Then Dr Heber helps you build your own ideal diet starting with protein then 7 colorful servings of fruits and vegetables providing 25 grams of filling fiber and finally whole grains Dr Heber explains not only glycemic index how fast blood sugar goes up but glycemic load glycemic index how much carbohydrate a food provides which determines how a particular food affects the overall diet He groups foods into four tables to make it easy for readers to navigate their dinner table In a world of dietary fads and one size fits all pseudo miracle diets The LA Shape Diet is the most effective easy to follow scientifically sound dietary plan you ll find *No Fads, No Frills, No Nonsense Weight Loss Plan* Jim Johnson,2008 There are hundreds of diet books giving wildly different theories and contradictory advice How can you be sure which one will work Jim Johnson has tested a huge range of dieting literature and his handy guide is a collection of the diet and exercise strategies that gave the best weight loss results Not only have all the techniques suggested in this book been scientifically proven to cause more effective weight loss they don t rely on a catchy gimmicks or require expensive gym memberships bossy personal trainers or artificial supplements With information on calculating calorie needs and determining your Body Mass Index lose weight and keep it off with these no fads solutions
