**Superfluous Things** Craig Clunas, 2004-05-31 Now in paperback This outstanding and original book presented here with a new preface examines the history of material culture in early modern China Craig Clunas analyzes superfluous things the paintings calligraphy bronzes ceramics carved jade and other objects owned by the elites of Ming China and describes contemporary attitudes to them He informs his discussions with reference to both socio cultural theory and current debates on eighteenth century England concerning luxury conspicuous consumption and the growth of the consumer society

*Subject and Object in Renaissance Culture* Margreta de Grazia, Maureen Quilligan, Peter Stallybrass, 1996-02-23 This collection of original essays brings together some of the most prominent figures in new historicist and cultural materialist approaches to the early modern period and offers a new focus on the literature and culture of the Renaissance Traditionally Renaissance studies have concentrated on the human subject The essays collected here bring objects purses clothes tapestries houses maps feathers communion wafers tools pages skulls back into view As a result the much vaunted early modern subject ceases to look autonomous and sovereign but is instead caught up in a vast and uneven world of objects which he and she makes owns values imagines and represents This book puts things back into relation with people in the process it elicits new critical readings and new cultural configurations

Castelli,2021-10-07 Aristotle s Topics is a handbook for dialectic i e the exercise for philosophical debates between a questioner and a respondent Alexander takes the Topics as a sort of handbook teaching how to defend and how attack any philosophical claim against philosophical adversaries In book 3 Aristotle develops strategies for arguing about comparative claims in which properties are said to belong to subjects to a greater lesser or equal degree Aristotle illustrates the different argumentative patterns that can be used to establish or refute a comparative claim through one single example whether something is more or less or equally to be chosen or to be avoided than something else In his commentary on Topics 3 here translated for the first time into English Alexander of Aphrodisias spells out Aristotle s text by referring to issues and examples from debates with other philosophical school especially the Stoics of his time The commentary provides new evidence for Alexander s views on the logic of comparison and is a relatively neglected source for Peripatetic ethics in late antiquity This volume will be valuable reading for students of Aristotle and of the developments of Peripatetic logic and ethics in late antiquity      **Ownership: Early Christian Teaching** Charles Avila,2004-06-14 Charles Avila s important retrieval of patristic texts reminds us that the option for the poor is not a new theological fad but an ancient Christian legacy Joe Holland Center of Concern Washington D C Charles Avila has provided an important recovery of the patristic teachings on wealth and poverty and has shown that a Christian theology of stewardship must be rooted in an ethic of economic justice Rosemary Radford Ruether Carpenter Professor of Feminist Theology Pacific School of Religion This book is a rich anthology of a stream of Christianity which offers a striking vision of what the Redemption ought to imply normatively for a Christian inspired organization of economic
