*Kid Scientists* David Stabler, 2018-10-09 A New York Journal of Books Notable Children's Book Funny childhood biographies and cartoon style illustrations take us inside the lives of 15 scientific legends when they were kids from Albert Einstein and Jane Goodall to Marie Curie and Neil DeGrasse Tyson Every great scientist started out as a kid Before their experiments inventions and discoveries that changed the world the world's most celebrated scientists had regular kid problems just like you Stephen Hawking hated school and preferred to spend his free time building model airplanes inventing board games and even building his own computer Jane Goodall got in trouble for bringing worms and snails into her house And Neil deGrasse Tyson had to start a dog walking business to save up money to buy a telescope *Kid Scientists* tells the stories of a diverse and inclusive group including Temple Grandin Nikola Tesla Ada Lovelace Benjamin Franklin Isaac Newton Rosalind Franklin Sally Ride Rachel Carson George Washington Carver Vera Rubin With whimsical

illustrations bringing every caper scrape and sticky situation to life this book is a fun approachable introduction to the giants of the scientific world and a perfect addition to libraries classrooms and kids at home collections interesting funny and most importantly relevant to kids today Geek Dad **NASA Superstars of Science** United States. National Aeronautics and Space Administration,1994\* *Executive Thinking* Kevin Baize OD,Morris Graham PhD,2011-02-18 Life is about how much we think Thinking is about how much mental capacity we possess Capacity in addition to our abilities and conscientiousness is about how much we can process combinations of verbal height quantitative width and spatial depth with decisiveness direction and speed No matter where we go or what we do as executives we take our thinking with us That may spoil everything because to a great extent we do and accomplish what we think about Our thoughts mold our aspirations attitudes and accomplishments during our life In other words our careers and lives are influenced more by the power of our thoughts than anything else The bad news is that most of us never fully use our mental capacities and never achieve our potential The good news is that neural technologies are now available to transform our thinking into the higher realms of brilliance Developing the spatial capacity to think higher wider and deeper means breaking away from the effects of years of flat thinking or educational backgrounds that stifles creative innovative potential Expand your mental agility through a development of higher order processes and discover a whole new world mentally in *Executive Thinking* Science Superstars Jennifer Calvert,2021-09-07 Discover the amazing women who took science by storm Women scientists are not new but they haven't always gotten credit for being so stellar In Jennifer Calvert and Octavia Jackson's *Science Superstars* you'll be introduced to 30 remarkable women whose passion and dedication to all things science led to groundbreaking discoveries vital medicine essential technology and cutting edge inventions that changed the world If you use GPS or Wi-Fi you have Hedy Lamarr to thank for that If you are fascinated by space travel look no further than Katherine Johnson Mary Jackson Stephanie Kwolek Sally Ride and Mae Jemison And if you're spellbound by advances in medicine the work of Elizabeth Blackwell Elizabeth Garrett Anderson Dorothy Crowfoot Hodgkin and others is indispensable to the world we know today Discover the triumphs curiosity and hard work of female trailblazers whose love of science spurred revolutionary advances **Research in the Biomedical Sciences** Michael Williams,Michael Curtis,Kevin Mullane,2017-10-20 *Research in the Biomedical Sciences* Transparent and Reproducible documents the widespread concerns related to reproducibility in biomedical research and provides a best practices guide to effective and transparent hypothesis generation experimental design reagent standardization including validation and authentication statistical analysis and data reporting The book addresses issues in the perceived value of the existing peer review process and calls for the need for improved transparency in data reporting It reflects new guidelines for publication that include manuscript checklists replication reproducibility initiatives and the potential consequences for the biomedical research community and societal health and well being if training mentoring and funding of new generations of researchers and incentives for publications are not improved This book

offers real world examples insights and solutions to provide a thought provoking and timely resource for all those learning about or engaged in performing and supervising research across the biomedical sciences Provides a big picture perspective on the scope of reproducibility issues and covers initiatives that have potential as effective solutions Offers real world research context for transparent reproducible experimental design execution and reporting of biomedical research with the potential to address aspects of the translational gap in drug discovery Highlights the importance of reproducibility and the necessary changes in biomedical and pharmaceutical research training and incentives to ensure sustainability **Ebony**,1991-09 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine Edison Superstars of Science,2008 **Ebony**,1991-10 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine *Science Superstars* Childrens Press Staff,2001-01-01 Superstar Mandy Davis,2017-06-20 A Bank Street College of Education Best Children s Book of the Year Lester s first person narrative is honest and pure Kirkus starred review Perfect for fans of Fish in a Tree and Wonder this uplifting debut novel from Mandy Davis follows space obsessed Lester Musselbaum as he experiences the challenges of his first days of public school making friends facing bullies finding his thing and accidentally learning of his autism spectrum diagnosis Lester s first days as a fifth grader at Quarry Elementary School are not even a little bit like he thought they would be the cafeteria is too loud for Lester s ears there are too many kids and then there s the bully Lester was always home schooled and now he s shocked to be stuck in a school where everything just seems wrong That s until he hears about the science fair which goes really well for Lester This is it The moment where I find out for 100 percent sure that I won But then things go a bit sideways and Lester has to find his way back A touching peek into the life of a sensitive autism spectrum boy facing the everydayness of elementary school Superstar testifies that what you can do isn t nearly as important as who you are A lovely heartfelt narrative about the things we ve lost and the things we ve found again Gary D Schmidt Newbery Honor winner for The Wednesday Wars I LOVE LESTER Linda Urban author of Milo Speck Accidental Agent and A Crooked Kind of Perfect *Heterodoxy*,1995 **Arts, Sciences, and Economics** Tõnu Puu,2006-08-26 This book has a rather long winding history It is not like anything else the present author ever wrote as all the rest is theoretical economics in a distinctively mathematical dress For the emergence of the following pages there are several people cept the author who are to have the credit or perhaps the blame Around 1985 the department of economics at Ume University in the North of Sweden was visited by Professor William Hendon Editor of the Journal of Cultural Economics In my capacity of chairman of the department I invited him to a social lunch We soon realized that we did not have much in terms of common research interests to talk about However somebody at the partment later informed him that I also used to make copies of historical musical instruments during my free hours so once back in the US he asked me to write an article for his journal comparing the

making of mathematical models to the making musical instruments I thought the idea was absolutely crazy but could not help start thinking about it now and then so five years later I actually contributed a paper called On the unity of the arts crafts and sciences     *Science Fiction and Fantasy Reference Index, 1985-1991* Halbert W. Hall,1993     **The Truth in Small Doses** Clifton Leaf,2014-08-05 A decade ago Leaf a cancer survivor himself began to investigate why we had made such limited progress fighting this terrifying disease The result is a gripping narrative that reveals why the public s immense investment in research has been badly misspent why scientists seldom collaborate and share their data why new drugs are so expensive yet routinely fail and why our best hope for progress brilliant young scientists are now abandoning the search for a cure     **The Publishers' Trade List Annual** ,1984
