For his 80th birthday a group of scholars assembled to celebrate and analyze his oeuvre. What have been his most important insights? What will he bequeath to the 21st century? Specialists hold up to the light the main strands of Versnel's scholarship and he reacts to their praise and critique. An introduction that seeks to contextualize this oeuvre and a bibliography of Versnel's publications round out the picture of a scholar who has put his stamp on the study of ancient religions and magical practices and who has promoted the field in many ways, especially as the driving force behind Brill's flagship series *Religion in the Graeco-Roman World* of which this fittingly is the 200th volume.

**History and Historiography in Greece** Nikos Christofis, 2025-05-01 An updated guide to Greek historiography was long overdue. In this comprehensive and temporally wide-ranging reassessment *History and Historiography in Greece* examines the evolution of Greek historical scholarship by reviewing the ideas, methods, and schools of history shaping the field. From how these developments correspond with international trends to their rate of development alongside global shifts in scholarship, this volume identifies not only the ideological limitations shaping Greek academia but also the innovations that are breaking new ground. In doing so, the contributors illuminate how those developments yield new lessons for existing conceptual frameworks within the fields of labor, gender, diaspora studies, and more. **Local Self-Governance in**

**Antiquity and in the Global South** Dominique Krüger, Christoph Mohamad-Klotzbach, Rene Pfeilschifter, 2022-12-31 The nucleus of society is situated at the local level in the village, the neighborhood, the city district. This is where a community first

develops collective rules that are intended to ensure its continued existence The contributors look at such configurations in geographical areas and time periods that lie outside of the modern Western world with its particular development of society and statehood in Antiquity and in the Global South of the present Here states tend to be weak with obvious challenges and opportunities for local communities How does governance in this context work Scholars from various disciplines Classics Theology Political Science Sociology Social Anthropology Human Geography Sinology analyze different kinds of local arrangements in case studies and they do so with a comparative approach The sixteen papers examine the scope and spatial contingency of forms of self governance its legitimization and the collective identity of the groups behind them the relations to different levels of state governance as well as to other local groups Overall this volume makes an interdisciplinary contribution to a better understanding of fundamental elements of local governance and statehood **Supplementum**
