York is often described as the greatest city in the world Yet much of the iconic architecture and culture which so defines the city as we know it today from the Empire State Building to the Pastrami sandwich only came into being in the 1930s in what was perhaps the most significant decade in the city's 400 year history After the roaring twenties the catastrophic Wall Street Crash and ensuing Depression seemed to spell disaster for the vibrant city Yet in this era New York underwent an architectural economic social and creative renaissance under the leadership of the charismatic mayor Fiorello La Guardia After seizing power he declared war on the mafia mobs running vast swathes of the city attacked political corruption and kick started the economy through a variety of construction and infrastructure projects In culture this was the age of the Harlem Renaissance championed by writers like Langston Hughes the jazz age with the advent of Tin Pan Alley the Cotton Club and immortals such as Duke Ellington making his name in the Big Apple Weaving these stories together Jules Stewart tells the story of an iconic city in a time of change **The War on Alcohol** Lisa McGirr, 2015-11-19 This fine history of Prohibition could have a major impact on how we read American political history James A Morone New York Times Book Review Prohibition has long been portrayed as a noble experiment that failed a newsreel story of glamorous gangsters flappers and speakeasies Now at last Lisa McGirr dismantles this cherished myth to reveal a much more significant history Prohibition was the seedbed for a pivotal expansion of the federal government the genesis of our contemporary penal state Her deeply researched eye opening account uncovers patterns of enforcement still familiar today the war on alcohol was waged disproportionately in African American immigrant and poor white communities Alongside Jim Crow and other discriminatory laws Prohibition brought coercion into everyday life and even into private homes Its targets coalesced into an electoral base of urban working class voters that propelled FDR to the White House This outstanding history also reveals a new genome for the activist American state one that shows the DNA of the right as well as the left It was Herbert Hoover who built the extensive penal apparatus used by the federal government to combat the crime spawned by Prohibition The subsequent federal wars on crime on drugs and on terror all display the inheritances of the war on alcohol McGirr shows the powerful American state to be a bipartisan creation a legacy not only of the New Deal and the Great Society but also of Prohibition and its progeny The War on Alcohol is history at its best original authoritative and illuminating of our past and its continuing presence today **Midnight Rambles** David J. Goodwin, 2023-11-07 A micro biography of horror fiction's most influential author and his love hate relationship with New York City By the end of his life and near financial ruin pulp horror writer Howard Phillips Lovecraft resigned himself to the likelihood that his writing would be forgotten Today Lovecraft stands alongside J R R Tolkien as the most influential genre writer of the twentieth century His reputation as an unreformed racist and bigot however leaves readers to grapple with his legacy Midnight Rambles explores Lovecraft's time in New York City a crucial yet often overlooked chapter in his life that shaped his literary career and the inextricable racism in his work Initially New York stood as a place of liberation for Lovecraft During the brief period between 1924 and 1926 when he lived there

Lovecraft joined a creative community and experimented with bohemian living in the publishing and cultural capital of the United States. He also married fellow writer Sonia H. Greene, a Ukrainian Jewish migrant in the fashion industry. However, cascading personal setbacks and his own professional ineptitude soured him on New York. As Lovecraft became more frustrated, his xenophobia and racism became more pronounced. New York's large immigrant population and minority communities disgusted him, and this mindset soon became evident in his writing. Many of his stories from this era are infused with racial and ethnic stereotypes and nativist themes, most notably his overtly racist short story *The Horror at Red Hook* set in Red Hook, Brooklyn. His personal letters reveal an even darker bigotry. Author David J. Goodwin presents a chronological micro biography of Lovecraft's New York years, emphasizing Lovecraft's exploration of the city environment, the greater metropolitan region, and other locales, and how they molded him as a writer and as an individual. Drawing from primary sources, letters, memoirs, and published personal reflections, and secondary sources, biographies, and scholarship, *Midnight Rambles* develops a portrait of a talented and troubled author and offers insights into his unsettling beliefs on race, ethnicity, and immigration.

**How Cities Become Brands** Eric Häusler, Jürgen Häusler, 2024-03-26

This book explores how the fragile and lengthy process of developing a city brand can be carefully managed. Necessary background information is explained, numerous experiences are reported, and targeted city branding is inspired in a variety of ways. The dream of every brand maker to develop a city into a strong city brand, perhaps even a myth, The creation of myths remains a curiosity. Is it targeted, are there relevant recipes for success, and can those responsible be identified? Above all, Can the process be replicated? How do brand makers deal with the complexity of the phenomena of cities and city brands? How do they give the arduous process of creating a city brand a reasonable chance of success? How do brand makers deal with the often biting criticism from outside and the nagging self-doubt? Successful cityscapes arise from the trials and tribulations of complex and sometimes random processes. In the course of global city competition, this evolutionary process is enriched with the achievements of the craft of branding. This is not a guarantee of success. Success depends on numerous prerequisites, which are discussed in detail. Finally, craft rules for good and at the same time sensitive city branding are mentioned. The translation was done with the help of artificial intelligence. A subsequent human revision was done primarily in terms of content, national criticism, and self-doubts. City images emerge from complex and random processes. In global urban competition, this process is enriched with brand-making achievements. Success isn't guaranteed depending on discussed conditions.
