Discipline and Desire Elise Morrison, 2016-10-12 Focuses on how contemporary artists have responded to the ubiquitous presence of surveillance technologies in our daily lives **Surrealist Landscape in the American West** Samantha Kavky, 2025-12-16 Focusing on the period of the Second World War this book explores the emergence of surrealist landscape as a genre throughout the period of surrealist exile in the Americas By positioning surrealist landscape within the formal iconographic and theoretical strategies of the larger movement as well as within the historical context of war and exile the volume encompasses critical and historical discussions from a broad spectrum of interrelated fields including psychology anthropology military history art history and ecocriticism Central to this book are the landscapes of Max Ernst who along with transplanted European surrealists Wolfgang Paalen and Kurt Seligmann revitalized a Romantic image of the American landscape and its indigenous peoples divorced from and as a challenge to European nationalism American surrealists Dorothea Tanning and Kay Sage challenged traditional analogies between the earth and the female body retained by their male partners Other European surrealists such as Salvador Dal and Yves Tanguy perpetuated the appropriation of the desert as a generic space for visionary projection The book will be of interest to scholars working in art history surrealism ecocriticism American studies and feminist studies **Surrealist Sorcery** Will Atkin, 2023-08-10 Often regarded as an artistic movement of interwar Paris Surrealism comprised an international community of artists writers and intellectuals who have aspired to change the conditions of life itself over the course of the past century Consisting of a wide range of dedicated case studies from the 1920s to the 1970s this book highlights the international dimensions of the Surrealist Movement and the radical chains of thought that linked its followers across the globe from France to Romania and from Canada to the former Czechoslovakia From very early on the surrealists approached magic as a means of bypassing discrediting and combatting rationalism capitalism and other institutionalized systems and values that they saw to be constraining influences upon modern life Surrealist Sorcery maps out how this interest in magic developed into a major area of surrealist research that led not only to theoretical but also practical explorations of the subject Taking an international perspective Atkin surveys this important quality of the movement and how it s remained an important element in the surrealist project and its ongoing legacy *A Companion to Ezra Pound's Guide to Kulchur* Anderson Araujo, 2018 Published in 1938 Guide to Kulchur encapsulates Ezra Pound s chief concerns his cultural historiographic philosophical and epistemological theories his aesthetics and poetics and his economic and political thought In its fifty eight chapters and postscript it constitutes an interdisciplinary and transhistorical cultural anthropology that exemplifies his slogan for the renovation of ancient wisdom for current use Make It New Though wildly encyclopedic allusive and recursive Guide to Kulchur is inescapable in any serious study of Pound A Companion to Ezra Pound s Guide to Kulchur addresses the formidable interpretive challenges his most far reaching prose tract presents to the reader Providing page by page glosses on key terms and passages the

Companion also situates Pound's allusions and references in relation to other texts in his vast body of work especially *The Cantos* Striking a balance between rigorous scholarly standards and readerly accessibility the book is designed to meet the needs of the specialist while keeping the critical apparatus unobtrusive so as also to appeal to students and the general public A long needed resource A Companion to Ezra Pound's *Guide to Kulchur* makes a lasting contribution to the study of one of the most influential and controversial literary figures of the twentieth century
