Chace Ryan,Mya Ryan,2020 **Homeless Survival Guide** Nonstop Internet Staff,2002-12 Many middle class Americans are only a missed paycheck an unpredictable injury or illness or a pink slip away from being homeless The common saying is all too true There but for the grace of God go I Are you prepared for the possibility of living in the streets Will you be able to feed your family Would you be able to survive so you have a shot at bouncing back to middle class Until now all books on the subject of homelessness deal with social injustice deficiencies in public policy psychology sociology and history There is no practical instruction on how to survive the street life This is a practical how to guide based on actual experiences of homeless people on how to survive the daily rigors of the street how to secure shelter food security transportation healthcare and all necessities of homeless life This is not a sterile academic document but represents the true experiences of people who are still trying to survive the rigors of the streets And unfortunately it also represents the input of those who are losing the survival battlefield of the streets with the prospective casualties being their lives or their sanity To produce this guide our staff visited the mean streets of Los Angeles and Hollywood to interview the homeless We have obtained first hand experiences of the unfortunate souls who live this sad life From them we obtained advice on what it takes to survive the daily challenges facing the homeless A Guide for the Homeless Tobias Moore,2018-03-28 If you re homeless this guide will help While living on the streets can be hard and scary the simple and effective skills in this guide will help you survive and even thrive Finding food and shelter knowing what to do in bad weather where to hang out how to be safe how to make money and how to take care of your emotional and mental well being are a few skills talked about

Schuster,2022-01-27 Homeless Voices Stigma Space and Social Media argues that the best sources for how to address issues of homelessness are people experiencing homelessness themselves particularly as they express their experiences through personal blogs and memoirs Mary L Schuster discusses how space and land have been historically denied to marginalized communities who still feel the effects to this day along with examining the conditions and limitations of common spaces often assigned to those experiencing homelessness culminating in an analysis of how the novel coronavirus COVID 19 has impacted homelessness Schuster focuses on two vulnerable groups that often experience homelessness victims of domestic violence and unaccompanied youth particularly those who struggle with gender identity and unstable housing This book includes a variety of case studies examining public meetings and court decisions public policy symposiums and personal interviews and ultimately finds that intersectionality specifically age race gender identity and ethnicity plays a large part in understanding and experiencing homelessness By shifting our attention to the diverse voices who experience homelessness themselves Schuster claims we can finally begin to remedy this crisis Scholars of media studies sociology and urban development will find this book particularly useful *Survival Guide for Homeless Families and Single People in Oxford* Oxford (England).
