Survivla Guide Shannon Robinson:

Handbook on Business Process Management 1 Jan vom Brocke, Michael Rosemann, 2014-08-29 Business Process Management BPM has become one of the most widely used approaches for the design of modern organizational and information systems. The conscious treatment of business processes as significant corporate assets has facilitated substantial improvements in organizational performance but is also used to ensure the conformance of corporate activities. This Handbook presents in two volumes the contemporary body of knowledge as articulated by the world's leading BPM thought leaders. This first volume focuses on arriving at a sound definition of BPM approaches and examines BPM methods and process aware information systems. As such it provides guidance for the integration of BPM into corporate methodologies and information systems. Each chapter has been contributed by leading international experts. Selected case studies complement their views and lead to a summary of BPM expertise that is unique in its coverage of the most critical success factors of BPM. The second edition of this handbook has been significantly revised and extended. Each chapter has been updated to reflect the most current developments. This includes in particular new technologies such as in memory data and process management, social media and networks. A further focus of this revised and extended edition is on the actual deployment of the proposed theoretical concepts. This volume includes a number of entire new chapters from some of the world's leading experts in the domain of BPM.

Mothers and Daughters Alice H. Deakins, Rebecca Bryant Lockridge, Helen M. Sterk, 2012-06-21 Family stories of the ties between mothers and daughters form the foundation of *Mothers and Daughters*. Complicated Connections Across Cultures. Nationally and internationally known feminist scholars frame, analyze, and explore mother daughter bonds in this collection of essays. Cultures from around the world are mined for insights which reveal historical, generational, ethnic, political, religious, and social class differences. This book focuses on the tenacity of the connection between mothers and daughters, impediments to a strong connection, and practices of good communication. *Mothers and Daughters* will interest those studying communication, women's studies, psychology, sociology, anthropology, counseling, and cultural studies.

Conflicted Isaac Blacksin, 2024-07-02 How is popular knowledge of war shaped by the stories we consume? What are the boundaries of this knowledge and how are these boundaries policed or contested by journalists producing knowledge from war zones? Based on years of fieldwork in Iraq, Syria, Lebanon, Afghanistan, and Ukraine, *Conflicted* challenges normative conceptions of war by revealing how representational authority comes to be. Turning the lens on journalists from The New York Times, The Washington Post, The Wall Street Journal, and other prominent publications, Isaac Blacksin shows why news coverage of

contemporary conflict widely presumed to function as a critique of excessive violence instead serves to sanction official rationales for war Blacksin argues that journalism's humanitarian frame now hegemonic in conflict coverage serves to depoliticize and remoralize war transforming war from an effect of policy on populations to a matter of violence against the innocent Exploring the tension between experience and expression in conditions of violence and tracking how journalists respond to dominant expectations of reality Conflicted tells the story of war reporters and the consequences of their convergence As new wars and new reportage continue to shape our understanding of armed conflict this book makes visible both the power and the particularity of war reportage
