Sustainable Development A Special Strategic Management Issue:

Sustainable Development - a special strategic management issue Thomas Hollwedel, 2004-07-19 Essay from the year 2002 in the subject Business economics Miscellaneous grade 1 0 A University of Dusseldorf Heinrich Heine Department for Economics Production course Strategic Management a process and its practical implementation language English abstract This paper is divided in three major parts In the first one a definition of sustainable development and an overview about its history and importance will be given before part two chapter 3 will follow with the consequences and importance sustainable development has for business In the third part chapter 4 the author will give an idea how sustainable development and strategic management can be linked Finally the author will draw a brief conclusion To have a common understanding throughout the text one of the most popular definition will be given It s taken from the report Our Common Future published 1987 by the WCED better known as the Brundtland Commission Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs It contains within two key concepts the concept of needs in particular the essential needs of the world s poor to which overriding priority should be given and the idea of limitations imposed by the state of technology and social organization on the environment s ability to meet present and future needs 1 The idea itself is not new and can be found in a lot of cultures e g the Indians say Treat earth well it is brought from your grandchildren The important aspect of having this rather vague definition is that for the first time a definition on an international level was found and widely discussed by governments NGOs and the industry 2 1 Wagner G R 1997 S 35 2 compare Matten D Wagner G R 1998 pp 55 56 Strategic Management of Sustainable Manufacturing Operations Dubey, Rameshwar, 2016-05-11 As companies and organizations continue to grow economically it has become pertinent to also implement business and management practices that help relieve environmental and social stressors created by manufacturing processes Strategic Management of Sustainable Manufacturing Operations features an inclusive overview of various management practices that contribute to the sustainability efforts of an organization Highlighting successful techniques being implemented and utilized by different companies this publication is an essential reference source for researchers academics consultants policy makers and practitioners interested in sustainable performance measurement supply chain design and operations management Handbook of Entrepreneurship and Sustainable Development Research Paula Kyrö, 2015-01-30 Allying and expanding the diverse fields of entrepreneurship and sustainable development research is a modern day imperative This Handbook paints an illuminating picture of the historic and current understanding of the bond between entrepreneurship and *Corporate Social Responsibility* Subhabrata Bobby Banerjee, 2009-01-01 This book has many merits It will make fascinating reading for the increasing number of organizational scholars who wonder how organizational research can engage more in accounting for the impact of corporations on their environment in a broad sense Bahar Ali Kazmi Bernard Leca and Philippe Naccache Organization Studies This book is for

those who will enjoy a thoughtful and informative monograph that acutely summarises and refreshes critique from a political and sociological perspective It is a comprehensive re interpretation of the corporate world and the evidently meretricious regime of CSR which makes it an enjoyable compendium for critical management studies fans this erudite volume will be valuable to mainstream social science academics either involved in or dismissive of CSR and sustainability discourses in management education and research David Bevan Scandinavian Journal of Management Banerjee s book is thought provoking and must be read But it should be read not only by corporate social responsibility scholars but by all business scholars It is through Banerjee s provocations that we can understand the shortcomings of corporate systems and the boundaries of corporate social responsibility Pratima Bansal Administrative Science Quarterly This is a tour de force that carefully assembles and incisively interrogates perhaps the most pressing problem of our age how to harness the resources of corporations to tackle global problems of poverty oppression and environmental degradation Banerjee does not present us with glib pronouncements or simplistic fixes Instead he brilliantly illuminates the scale of the challenges and lucidly assesses the relevance and value of CSR responses to date Hugh Willmott University of Cardiff UK Bobby Banerjee takes on the popular mythologies of neo liberal corporate social responsibility with enviable flair and a thoroughness of scholarship that will dismay its apologists His critique extends from the origins of the modern corporation and its well known abuses and excesses to far harder targets the more attractive alternatives that have been developed for theory and practice that as Banerjee shows brilliantly only serve to mask continuing neo colonial abuses Banerjee is not content simply to expose the impossibilities of doing good works whilst maximizing shareholder value the win win view of CSR but he bites the bullet with some uncompromising but realistic proposals for the future reconstruction of CSR both as a field of study and as a business practice We have needed this exposure of the bad and the ugly for a long time The current versions of CSR are simply just not good enough Stephen Linstead University of York UK Banerjee pulls the beguiling mask off corporate social responsibility Taking the vantage point of the world s poor he shows CSR to be a cruel hoax corporations cynical effort to undermine growing demands for economic and environmental justice Paul S Adler University of Southern California US This book problematizes the win win assumption underlying discourses of CSR and suggests that it is a rhetoric that is invariably subordinated to that of corporate rationality Rather than see CSR as providing the means to transform corporations by advocating a stakeholder view of the firm it argues that CSR represents an ideological movement designed to consolidate the power of transnational corporations and provide a veneer of liberality to the illiberal economic agenda of the major global institutions Stewart Clegg University of Technology Sydney Australia Professor Banerjee offers us a refreshing analysis of corporate social responsibility CSR in an otherwise comparatively turgid literary landscape People may disagree with his criticism that because of its preoccupation with shareholder value the corporation is an inappropriate agent for social change but it is backed up by strong theoretical and substantive empirical

Strategic Management Richard Lynch, 2018-05-09

Strategic Management is a core strategy textbook covering all the major topics particularly from a global perspective. It delivers comprehensive coverage of the subject in an easy to read style with extensive examples and a range of free support material that will help you learn actively and effectively. This eighth edition of Strategic Management builds on proven strengths over 70 short case studies to provide easily accessible illustrations of strategy in practice and additional cases available online to provide more in depth examples of recent strategic decisions involving Sony, Apple and industry sectors. A continuous contrast between prescriptive and emergent views of strategy to highlight the key debates within the discipline, emphasis on practice throughout with features to help you turn theory into practice, major international strategy cases from Europe, Africa, China, India, Middle East and the Americas, clear exploration of the key concepts, comprehensive logical structure to guide you through this complex subject, Specialist chapters on public, third sector, strategy, green strategy and sustainability, entrepreneurial strategy and international and global strategy. New for the eighth edition: Dynamic capabilities and resource renewal explored in a revised and updated chapter; Emergent strategy completely revised in two new chapters, one focusing on innovation and technology and the other exploring knowledge and learning; New material on innovation and strategy in uncertain environments; Case studies from large and small organisations from Google, Spotify and Cadbury to Snapchat, Uber and green energy companies with 14 new cases and many cases updated. This new edition also includes a wealth of free online open access learning resources. Use these materials to enhance and test your knowledge to improve your grades. Online resources include web based cases with indicative answers, chapter based support material, long cases and multiple choice questions. Strategic Management in the Asia Pacific Usha C. V. Haley, 2000. Strategic Management in the Asia Pacific assembles an international team of world famous practitioners and experts to cover the most significant aspects of doing business in the Asia Pacific. Recent developments such as the domino declines in the world financial markets clearly demonstrate that we live and perceive ourselves as living in an interdependent world where business developments in Hong Kong can affect those in New York, London or Sao Paulo. Understanding how to manage effectively in the Asia Pacific positively affects multinationals' profits and survival. Strategic Management in the Asia Pacific explores how to manage effectively and profitably in the Asia Pacific and identifies and interprets important environmental characteristics and key stakeholders' influences. Sources for up to the minute information to make strategic decisions are also indicated. Contributors include Kam Hon Lee, Dean of Business School, Chinese University of Hong Kong who advised Coca Cola's entry into China; Mike Hobday, University of Sussex who advises the Malaysia Government on its 2020 policy; Ingo Walter, Stern School of Business, New York University who advises several major governments and corporate institutions on international banking and finance; Chin Tiong Tan, National University of Singapore who advises Singapore Airlines among other major companies; Kong Yam Tan, National University of
