**Sustainable Landscapes and Lifeways** Anne Buttmer, 2001      European Landscapes in Transition Teresa Pinto-Correia, Jørgen Primdahl, G. Bas M. Pedroli, 2018-01-25 A presentation of the challenges of European rural landscape management exploring alternatives that incorporate place based approaches      **European Rural Landscapes** Hannes Palang, 2004-05-31 This book a compendium of 28 papers selected from two recent conferences on the topic focuses on aspects of rural landscape broadly related to issues of language representation and power These are issues that have not been addressed on a pan European landscape level before The aim is to offer a deeper interdisciplinary understanding of historical and contemporary processes in European landscapes      **Exploring and Optimizing Agricultural Landscapes** Lothar Mueller, Viktor G. Sychev, Nikolai M. Dronin, Frank Eulenstein, 2021-06-14 The book informs about agricultural landscapes their features functions and regulatory mechanisms It characterizes agricultural production systems trends of their development and their impacts on the landscape Agricultural landscapes are multifunctional systems coupled with all nexus problems of the 21st century This has led to serious discrepancies between agriculture and environment and between urban and rural population The mission key topics and methods of research in order to understanding monitoring and controlling processes in rural landscapes is being explained Studies of international expert teams many of them from Russia demonstrate approaches towards both improving agricultural productivity and sustainability and enhancing ecosystem services of agricultural landscapes Scientists of different disciplines decision makers farmers and further informed people dealing with the evolvement of thriving rural landscapes are the primary audience of this book      **Landscape Perspectives** Marc Antrop, Veerle Van Eetvelde, 2017-12-19 Climb a mountain and experience the landscape Try to grasp its holistic nature Do not climb alone but with others and share your experience Be sure the ways of seeing the landscape will be very different We experience the landscape with all senses as a complex dynamic and hierarchically structured whole The landscape is tangible out there and simultaneously a mental reality Several perspectives are obvious because of language culture and background Many disciplines developed to study the landscape focussing on specific interest groups and applications Gradually the holistic way of seeing became lost This book explores the different perspectives on the landscape in relation to its holistic nature We start from its multiple linguistic meanings and a comprehensive overview of the development of landscape research from its geographical origins to the wide variety of today s specialised disciplines and interest groups Understanding the different perspectives on the landscapes and bringing them together is essential in transdisciplinary approaches where the landscape is the integrating concept      Landscape Interfaces Hannes Palang, G. Fry, 2003-07-31 This book has been initiated by the workshop on Cultural heritage in changing landscapes held during the IALE International Association for Landscape Ecology European Conference that started in Stockholm Sweden in June 2001 and continued across the Baltic to Tartu Estonia in July The papers presented at the workshop have been supported by invited contributions

that address a wider range of the cultural heritage management issues and research interfaces required to study cultural landscapes The book focuses on landscape interfaces Both the ones we find out there in the landscape and the ones we face while doing research We hope that this book helps if not to make use of these interfaces then at least to map them and bridge some of the gaps between them The editors wish to thank those people helping us to assemble this collection First of all our gratitude goes to the authors who contributed to the book We would like to thank Marc Antrop Mats Widgren Roland Gustavsson Marion Potschin Barbel Tress Tiina Peil Helen Soovali and Anu Printsmann for their quick and helpful advice opinions and comments during the different stages of editing Helen Soovali and Anu Printsmann together with Piret Pungas thank you for technical help

**Current Trends in Landscape Research** Lothar Mueller, Frank Eulenstein, 2019-11-13 This book presents definitions key concepts and projects in landscape research and related areas such as landscape science and landscape ecology addressing and characterising the international role status challenges future and tools of landscape research in the globalised world of the 21st century The book brings together views on landscapes from leading international teams and emerging authors from different scientific disciplines and regions of the globe It describes approaches for achieving sustainability and for handling the multifunctionality of landscapes and includes international case studies demonstrating the great potential of landscape research to provide partial sustainable solutions while developing cultural landscapes and protecting semi natural landscapes It is intended for scientists from various disciplines as well as informed readers dealing with landscape policies planning evolution management stewardship and conservation
