Frances Hodgson Burnett's The Secret Garden Jackie C. Horne, Joe Sutliff Sanders, 2011-07 Frances Hodgson Burnett gained famed not only as an author of social fictions and romances but also for writing the immensely popular children s novel *Little Lord Fauntleroy* She seemed an unlikely candidate to pen a quiet realistic and unsentimental paean to disagreeable children and the natural world which has the power to heal them But it is precisely these qualities that have garnered *The Secret Garden* both a continued audience and a central place in the canon of children s literature for a century In Frances Hodgson Burnett s *The Secret Garden* A Children s Classic at 100 some of the most respected scholars of children s literature consider Burnett s seminal work from modern critical perspectives Contributors examine the works and authors that influenced Burnett identify authors who have drawn on *The Secret Garden* in their writing and situate the novel in historical and theoretical contexts These essays push beyond the themes that have tended to occupy the majority of academic scholars who have written about *The Secret Garden* to date In doing so they approach the text from theoretical perspectives that allow new light to illuminate old debates Scholars and students of children s literature women s literature transcontinental literature and the Victorian Edwardian period will find in this collection refreshing new looks at a children s classic

[Literary Coteries and the Making of Modern Print Culture](#) Betty A. Schellenberg, 2016-06-06 *Literary Coteries and the Making of Modern Print Culture* offers the first study of manuscript

producing coteries as an integral element of eighteenth century Britain's literary culture As a corrective to literary histories assuming that the dominance of print meant the demise of a vital scribal culture the book profiles four interrelated and influential coteries focusing on each group's deployment of traditional scribal practices on key individuals who served as bridges between networks and on the aesthetic and cultural work performed by the group The book also explores points of intersection between coteries and the print trade whether in the form of individuals who straddled the two cultures publishing events in which the two media regimes collaborated or came into conflict literary conventions adapted from manuscript practice to serve the ends of print or simply poetry hand copied from magazines Together these instances demonstrate how scribal modes shaped modern literary production This title is also available as Open Access
