The Making Of A Quagmire

JG Myers

The Making Of A Quagmire:

The Making of a Quagmire David Halberstam, 1965 Halberstam's Pulitzer Prize winning eyewitness account of the most critical political period of American involvement in Vietnam is now designed for classroom use by Daniel J Singal Including a new introduction and footnotes describing unfamiliar people and events this work is lively and accessible for students With new maps and photographs students can visualize the crucial political events and increase their understanding of the policy errors of the early 1960s The Making of a Quagmire captures the story of the Diem Kennedy era and the fundamental misconceptions that governed American policy and the South Vietnamese perspective

The Making of a Quagmire David Halberstam, 2007-11-09 Pulitzer prize winning author David Halberstam's eyewitness account provides a riveting narrative of how the United States created a major foreign policy disaster for itself in a faraway land it knew little about In the introduction to this edition historian Daniel J Singal supplies crucial background information that was unavailable in the mid 1960s when the book was written With its numerous firsthand recollections of life in the war zone The Making of a Quagmire penetrates to the essence of what went wrong in Vietnam Although its focus is the Kennedy era its analysis of the blunders and misconceptions of American military and political leaders holds true for the entire war

The Making of a Quagmire Daniel J. Singal, 2007 Span style padding 0pt 0pt 0pt 0pt Pulitzer prize winning author David Halberstam's eyewitness account of the most critical political period of U S involvement in Vietnam the Kennedy Diem era remains as fresh and stimulating today as when it was first published in 1965 In the introduction to this edition historian Daniel J Singal provides crucial background information that was unavailable when the book was written

The Uncensored War Daniel C. Hallin, 1989-04-14 Vietnam was America's most divisive and unsuccessful foreign war It was also the first to be televised and the first of the modern era fought without military censorship From the earliest days of the Kennedy Johnson escalation right up to the American withdrawal and even today the media's role in Vietnam has continued to be intensely controversial The Uncensored War gives a richly detailed account of what Americans read and watched about Vietnam Hallin draws on the complete body of the New York Times coverage from 1961 to 1965 a sample of hundreds of television reports from 1965-73 including television coverage filmed by the Defense Department in the early years of the war and interviews with many of the journalists who reported it to give a powerful critique of the conventional wisdom both conservative and liberal about the media and Vietnam Far from being a consistent adversary of government policy in Vietnam Hallin shows the media were closely tied to official perspectives throughout the war though divisions in the government itself and contradictions in its public relations policies caused every administration at certain times to lose its ability to manage the news effectively As for television it neither showed the literal horror of war nor did it play a leading role in the collapse of support it presented a highly idealized picture of the war in the early years and shifted toward a more critical view only after public unhappiness and elite divisions over the war were well advanced

The Captive Press Ted Galen Carpenter, 1995 Crude forms of

coercion by the national security bureaucracy are not the only source of danger to a vigorous independent press. An equally serious threat is posed by the government's abuse of the secrecy system to control the flow of information and prevent disclosures that might cast doubt on the wisdom or morality of current policy. Most insidious and corrosive of all is the attempt by officials to entice journalists to be members of the foreign policy team rather than play their proper role as skeptical monitors of government conduct.

Shadow on the White House David L. Anderson, 1993 Harry Truman's administration began searching for an American response to the clash in Indochina between French colonialism and Vietminh communism in 1945. Thirty years and five administrations later, Gerald Ford and his aides tried unsuccessfully to solicit additional aid for South Vietnam from a reluctant Congress. For Truman, Ford, and every American leader in between, the dilemma in Vietnam hung ominously over the presidency. In *Shadow on the White House*, seven prominent historians examine how the leadership of six presidents and an issue that grew into a difficult and often unpopular war shaped each other. Focusing on the personalities, politics, priorities, and actions of the presidents as they confronted Vietnam, the authors consider the expansion of presidential power in foreign policy formulation since World War II. In their analyses, they chronicle the history of executive leadership as it related to Vietnam, assess presidential prerogatives and motives on war and peace issues, and clarify the interconnection between the modern presidency and the nation's frustrating, tragic, and humiliating failure in Southeast Asia. Although other histories have been written about the Vietnam experience, this book is the first systematic and comparative survey on presidential leadership as it relates to the war issue. It is organized by presidential administrations, giving a detailed examination of each president's decisions and policies. Based on the most recently opened archival sources, the essays provide a framework on which to hang the kaleidoscopic events of the war.

Amazon.com *US Special Forces and Counterinsurgency in Vietnam* Christopher K. Ives, 2007 This volume examines US Army Special Forces efforts to mobilize and train indigenous minorities in Vietnam. Christopher K. Ives shows how, before the Second Indochina War, the Republic of Vietnam had begun to falter under the burden of an increasingly successful insurgency. The dominant American military culture could not conform to President Kennedy's guidance to wage small wars, while President Diem's provincial and military structures provided neither assistance nor security. The Green Berets developed and executed effective counterinsurgency tactics and operations with strategic implications while living, training, and finally fighting with the Montagnard peoples in the Central Highlands. Special Forces soldiers developed and executed what needed to be done to mobilize indigenous minorities, having assessed what needed to be known. Combining Clausewitz business theory and strategic insight, this book provides an important starting point for thinking about how the US military should be approaching the problems of today's small wars. *US Special Forces and Counterinsurgency in Vietnam* will be of much interest to students of the Vietnam War, Special Forces operations, military innovation, and strategic theory in general.

The Writers Directory, 2013 **The Nation**, 1911 *Climate Change and the UN Security Council* Shirley V. Scott, Charlotte Ku, 2018-03-30 In

this forward looking book the authors consider how the United Nations Security Council could assist in addressing the global security challenges brought about by climate change Contributing authors contemplate how the UNSC could prepare for this role progressing the debate from whether and why the council should act on climate insecurity to how Scholars activists and policy makers will find this book a fertile source of innovative thinking and an invaluable basis on which to develop policy

They Must be Represented Paula Rabinowitz,1994 This text examines documentary in print photography and film from the 1930s to the present day using the lens of recent feminist film theory as well as scholarship on race class and gender Rabinowitz discusses the ways in which the media have shaped the truth over the decades in the 1930s about poverty labour and popular culture during the Depression in the 1960s about the Vietnam War racism work and the counterculture and in the 1980s about feminist and gay critiques of gender history narrative and cinema **Concerns in World Affairs, 1973**
