What Philosophy Can Do Gary Gutting, 2015-08-20 A brilliant demonstration of what philosophy can do and how it is essential to human integrity and identity Simon Critchley coeditor of *The Stone Reader* In *What Philosophy Can Do* Gary Gutting takes a philosopher's scalpel to modern life's biggest questions and the most powerful forces in our society politics science religion education and capitalism Along the way he introduces readers to powerful philosophical tools from inductive and deductive logic to the Principle of Charity which they can use to make better sense of current debates Interweaving his discussion of contemporary issues with philosophical concepts from Aristotle to Michel Foucault and John Rawls Gutting shows how philosophy can enrich public discussions about our most urgent issues **What Philosophy Can Do** John

Wilson, 1986-04-04 *Metaphilosophy and Free Will* Richard Double, 1996-09-26 Why is debate over the free will problem so intractable In this broad and stimulating look at the philosophical enterprise Richard Double uses the free will controversy to build on the subjectivist conclusion he developed in *The Non Reality of Free Will* OUP 1991 Double argues that various views about free will e.g. compatibilism incompatibilism and even subjectivism are compelling if and only if we adopt supporting metaphilosophical views Because metaphilosophical considerations are not provable we cannot show any free will theory to be most reasonable *Metaphilosophy and Free Will* deconstructs the free will problem and by example challenges philosophers in other areas to show how their philosophical argumentation can succeed **Multidisciplinarity and**
