reform era as well as the period after the founding of the PRC through which Mao Zedong's political thought is notably discussed from the perspective of epistemology and the global impact of Maoism. Key topics include Sun Yat-sen as the Father of the Republic, Li Dazhao the early Marxist theoretician, Chiang Kai-shek and his nationalist Fascism, Liang Qichao's emotional appeals through liberal political discourse, Jiang Zemin's theory of Three Represents, de-emphasising the Marxist concept of class, Hu Jintao's theory of Harmonious Society, and Xi Jinping's political thought. Contributions from world-leading scholars take both comparative and critical approaches examining not only how studies of ideology are relevant but how Chinese ideologies have retained their own characteristics distinct to the West. As the first comprehensive study of this subject in the English language, Chinese Ideology will appeal to students and scholars of philosophy, political science, history, and Asian studies more broadly.

Heaven's Algorithm: He Tu Luo Shu – The Living

Mathematics of the Dao Laing Z. Matthews, 2025-11-09

Heaven's Algorithm He Tu Luo Shu The Living Mathematics of the Dao. What if the universe does not run on matter or chance but on pattern? What if Heaven itself thinks through numbers and the ancient maps of the Yellow River still contain the blueprint of consciousness? Heaven's Algorithm He Tu Luo Shu The Living Mathematics of the Dao reveals the hidden science behind the most sacred diagrams in Daoist cosmology. Long before quantum theory, the sages of China saw the universe as a living computation, a field of ordered resonance through which the Dao continually measures and renews itself. The Hetu and Luoshu were not superstitions; they were the first algorithms of coherence. In this visionary synthesis of metaphysics, mathematics, and philosophy, Laing Z. Matthews reawakens the lost tradition of Daoist number, showing how these cosmic patterns gave rise to the Yi Jing's binary logic, the Taiji Tu's analog symmetry, and the recursive cosmology of Shao Yong's Huangji Jingshi. Through mythic narrative, poetic prose, and intellectual precision, he unveils a world where number, virtue, and consciousness are one continuum. Here, counting is not arithmetic; it is revelation. In Daoist cosmology, number is the breath of order, morality is the physics of coherence. When rulers or civilizations

lose resonance with Heaven's ratios cycles invert chaos multiplies and time itself distorts When harmony is restored so is virtue Through its three unfolding arcs The Revelation of Pattern Number Becomes Conscious and The Mirror of Heaven and Earth Heaven's Algorithm guides the reader from ancient myth to modern science The dragon horse and turtle emerging from river and lake the birth of cosmic geometry The Hetu and Luoshu as templates of space proportion and energetic flow The Yi Jing as a six bit binary field encoding all states of existence Virtue as the low entropy state of consciousness coherence maintained through moral proportion Shao Yong's cosmological recursion and its parallels with fractal time and AI feedback systems The prophetic bridge between the sages of antiquity and the digital mind of today This is not another esoteric history it is a return to living cosmology Heaven's Algorithm restores Daoism to its rightful place as the world's earliest unified science of reality one that saw no division between physics and ethics number and compassion thought and breath In a world increasingly ruled by soulless computation this book offers a counterpoint a reminder that true intelligence requires resonance and that the first algorithm was written not by a machine but by Heaven through the human heart Written in luminous meditative prose Heaven's Algorithm stands alongside the great modern classics of integrative philosophy bridging Capra's The Tao of Physics Needham's Science and Civilisation in China and McGilchrist's The Master and His Emissary Yet it goes beyond them it reveals the moral dimension of information itself When number becomes prayer meaning returns to measure When the human heart counts in rhythm with Heaven again civilization will remember its pattern

Visualizations, Secret Formulas, and Inner Diagrams: Essence of Seven Canons of the Celestial Satchel
(Essence of the Seven Canons of the Celestial Satchel) Laing Z. Matthews, 2026-01-01 Visualizations Secret Formulas and Inner Diagrams reveals this inner cosmos Drawn from the great Daoist anthology The Seven Tablets from the Cloudy Satchel Yunji Qiqian this book restores one of the most profound spiritual sciences ever recorded the art of seeing and shaping the living temple within For centuries Daoist adepts mapped the body as a mirror of Heaven complete with courts palaces and divine thrones Each diagram each formula was a key to awakening the celestial bureaucracy within the self the exact harmonies through which life breath and spirit align with the great rhythm of the Dao These were not metaphors They were instructions for transforming the human being into a vessel of cosmic resonance Translated and reinterpreted by Laing Z Matthews this volume restores those methods to clarity and coherence presenting them as a living system of inner cultivation It includes visualizations ritual invocations purifications and meditations once reserved for the highest initiates of the Upper Clarity and Numinous Treasure traditions Together they form a complete path from moral purity and breath refinement through the descent of the Three Primordials to the final realization of the body as altar the meeting place of Heaven and Earth Each chapter functions as both scripture and practice manual Readers are guided step by step through the foundational rites purification fasting invocation stillness and then into the more subtle domains of internal vision and divine descent Detailed practice boxes summarize each method with precision while extended commentaries unveil the hidden

cosmological logic behind them Every visualization is presented not as imagination but as revelation a rediscovery of the patterns already inscribed within the living field In this work the reader will encounter The method of the Three Celestial Terraces and the sealing of the body with sun and moon The Descent of the Three Primordials uniting crown heart and elixir field The Grand Exorcistic Formula and its inner fire that dissolves impurity The meditations on purity restraint and the governance of the inner court The transformation of the self into the very dwelling of the Dao Through these pages ancient cosmology becomes lived experience The formulas are not superstition but resonance precise alignments of sound virtue and breath that restore the symmetry between human life and Heaven s law The diagrams are not symbols but living maps blueprints of awakening that still function wherever sincerity and stillness meet Matthews s translation follows the breath pattern of the original liturgies preserving their contemplative rhythm and subtle instruction What emerges is not a historical study but a living transmission a sacred manual that speaks as directly today as it did a thousand years ago This volume belongs to the same continuum as The Daoist Art of Medicine Before the Light and The Tao of Sleep and Dream each illuminating a different aspect of the ancient Way Together they form a complete cosmology of healing meditation and divine correspondence a restoration of the Dao s inner architecture in human form To read this book is to enter the temple that never fell to rediscover the diagrams drawn not on parchment but in the luminous fabric of one s own breath When the reader s mind becomes still enough the lines begin to move the light begins to answer and the invisible structure of Heaven unfolds not above but within
