hand of man mainly birds of prey or have been dispossessed by changes in land use the spread of industrialisation urbanisation and pollution trends which continue today to the increasing detriment of even some of our most familiar countryside birds Much fine habitat remains however and new species have come in to colonise Wales and add to the magic of its countryside The three authors all staff of the RSPB in Wales have between them an accumulated experience of some 80 years of first hand knowledge of birds in the Principality Their knowledge and love of the birds and Wales itself makes this authoritative volume a landmark both in Welsh and ornithological publishing
