

Superheroes

Superheroes are fiction type characters who have special powers and abilities. They are usually strong, fast, powerful and have a magical like ability. They use these powers and abilities to help people and protect the world from evil and harm. Most superhero stories often show the good winning over the evil. They are usually seen as heroes and brave figures helping people fight against crime. The first superhero was created in the 1930s by a comic book artist named Joe Shuster. He created a character called Superman. Superman had super strength, could fly, and he had x-ray vision that let him see through walls. People loved Superman and he became very popular. Superheroes then spread to other comic book publishers and creators. Many more superheroes were created, including Batman, Spiderman, Wonder Woman, and many more. These characters have gone on to become very popular in movies, games and comics, and inspire people around the world. Superheroes continue to be very popular today. They provide an example of bravery and courage, and remind us that anyone can be a hero. Superheroes also teach us that we can be strong and brave even when things are difficult.
