Supernatural and Philosophy Galen A. Foresman, 2013-08-07 No doubt the years hunting monsters and saving the universe have had their toll on the Winchesters but their toughest and most gruesome battles are contained in this book Think Lucifer was diabolically clever Think again No son is more wayward than the one who squanders his intellect and academic career pursuing questions as poignant as Half awesome That s full on good right Gathered here for the first time since the formation of Purgatory a collection of research so arcane and horrific that it would make even the late great Bobby Singer blush *Supernatural* and *Philosophy* tackles all the big ideas in the long running hit show *Supernatural* covering thorny issues in a fun and accessible way Even those unfamiliar with the show will find fascinating insights into Heaven Hell Angels Demons God and Lucifer A unique collection of insights into the many philosophical religious and paranormal topics in the hit TV show *Supernatural* Accessible treatment of thorny issues for a general audience Written by philosophical fans of the show for philosophical fans of the show Those unfamiliar with the show will still find fascinating insights into Heaven Hell Angels Demons God Lucifer and Good and Evil Contributors tackle issues ranging from the biological classifications of monsters to the epistemological problems of ghost hunting *Supernatural Out of the Box* Lisa Macklem, Dominick Grace, 2020-08-13 *Supernatural* is one of the most successful horror TV shows ever providing fifteen seasons of the adventures of Dean and Sam Winchester as they hunt monsters and save the world It has nurtured a passionate fan base which has been far more directly integrated into the show than is typical Wry and self aware *Supernatural* repeatedly breaks out of the televisual box to acknowledge its fans and its own fictionality Though there have already been several studies of *Supernatural* this volume is the first to focus extensively and intensively on the show s metafictional elements This essay collection argues that *Supernatural* is not merely a horror show but is a show about how horror works as a genre and how fans interact with their favorite material From exploring how the show has equated authorship with divinity to considering its incorporation of fandom and closely reading several key episodes the essays in this volume seek to examine the multiple layers of textuality found in *Supernatural* *A Voice in the Wilderness* Professor Joseph L Graves Jr., 2022-09-13 Why understanding evolution the most reviled branch of science can help us all from fighting pandemics to undoing racism Evolutionary science has long been regarded as conservative a tool for enforcing regressive ideas particularly about race and gender But in *A Voice in the Wilderness* evolutionary biologist Joseph L Graves Jr once styled as the Black Darwin argues that his field is essential to social justice He shows for example why biological races do not exist He dismantles recent work in human biodiversity seeking genes to explain the achievements of different ethnic groups He decimates homophobia sexism and classism as well As a pioneering Black biologist a leftist and a Christian Graves uses his personal story his journey from a child of Jim Crow to a major researcher and leader of his peers to rewrite his field *A Voice in the Wilderness* is a powerful work of scientific anti racism and a moving account of a trailblazing life Transmediating the Whedonverse(s) Juliette C. Kitchens, Julie L.

Hawk,2019-10-29 This book explores the transmedial nature of the storyworlds created by and or affiliated with television auteur writer and filmmaker Joss Whedon As such the book addresses the ways in which Whedon s storyworlds or verses employ transmedia both intrinsically as texts and extrinsically as these texts are consumed and in some cases reworked by audiences This collection walks readers through fan and scholar fan engagement intrinsic textual transmediality and Whedon s lasting influence on televisual and transmedia texts In closing the editors argue for the need to continue research into how the Whedonverse s lend themselves to transmedial study engage audiences in ways that take advantage of multiple media and encourage textual internalization of these engagements within audiences Death in Supernatural Amanda

Taylor,Susan Nylander,2019-07-15 Over 14 seasons television s Supernatural has developed a devoted following of both fans and scholars The show has addressed big issues including perhaps the biggest death This collection of new essays examines how death is represented and personified in the series and how grief is processed in American society Contributors discuss the show s explorations of the ultimate mystery with topics covering American traditions and attitudes folklore and mythology resurrection and grief and grieving *Epic Heroes on Screen* Antony Augoustakis,2018-05-15 No detailed
