Superstar Job Interview Leveraging Portfolios:

Superstar Job Interview Dan Rivera,2015-11-27 The resume is now over 500 years old thanks Da Vinci and job interviews are a pain but unfortunately there is no getting around either of them This book will guide you in making sure the interview goes as smoothly as possible with the use of some 21st century tools but better yet if you follow the basic steps outlined in the book you will be more confident during the interview and you will do a fantastic job of impressing the interviewer with more than just a resume and talk but actual samples of your work The methods I go over through the 18 chapters are time tested by me personally I can show you how to use them because I know they work for me as well as for those who I have instructed in these methods I have tried to keep this book short because there are really only three things that you need to be a Superstar in a job interview 1 A well crafted resume2 A Mind Map that is visually tuned to the position job description and your resume3 And most important of all a Job Interview Portfolio that contains samples of your workItem 1 has been covered in countless books and workshops and covered well Items 2 and 3 have either received no coverage or spotty coverage over the years I intend to change that With Superstar Job Interview you will be able to focus on what will nail the job interview and get you the job that you deserve

The Creativity Leap Natalie Nixon,2020-06-23 Natalie Nixon s new book provides a fresh primer on how to cultivate creativity in the workplace Nir Eyal bestselling author of Hooked and

Indistractable Too many people associate creativity solely with the arts even though to be an incredible scientist engineer or entrepreneur requires immense creativity And it s the key to developing breakthrough products and services Natalie Nixon a creativity strategist with a background in cultural anthropology fashion and service design says that in the fourth industrial revolution a creativity leap is needed to bridge the gap that exists between the churn of work and the highly sought after prize called innovation Nixon says that since humans are hardwired to be creative it is a competency anyone can develop She shows that it balances wonder awe audacity and curiosity with rigor discipline skill building and attention to detail and that inquiry improvisation and intuition are the key practices that increase those capacities Drawing on interviews with fifty six people from diverse backgrounds farming law plumbing architecture perfumery medicine education technology and more she offers illuminating examples of how creativity manifests in every kind of work Combining creativity tools and techniques with real world stories of innovative people and businesses this book is a provocation an inspiration and an invitation to unleash the innate creativity that lies within each of us It offers a more dynamic and integrative way to adapt and innovate one that allows us the freedom to access our full human selves
