Supporting And Educating Traumatized Students A Guide For School Based Professionals:

Supporting and Educating Traumatized Students Eric A. Rossen, 2020 Traumatic or adverse experiences are pervasive among school aged children and youth. These experiences undermine students' ability to learn from relationships and manage their feelings and behavior. Meanwhile, educators and school based professionals often remain unaware of the complex needs of their students or how to meet them within the hours of the typical school day, all while possibly dealing with their own stressors. *Supporting and Educating Traumatized Students A Guide for School Based Professionals* provides a practically oriented tool for understanding and assisting students with a history of trauma. Designed specifically for professionals in mental health and education settings, this volume combines content and expertise from practitioners, researchers, and other experts with backgrounds in education, school psychology, school social work, school administration, resilience, school policy, and trauma. The book provides a thorough background on current research in trauma and its impact on school functioning, administrative and policy considerations, and a broad set of practical and implementable strategies and resources for adapting and differentiating instruction, modifying the classroom and school environments, and building competency for students and staff impacted by trauma. Rather than provide complex treatment protocols, the chapters in this book offer simple techniques and strategies designed for all types of educational environments within the context of multiple potential sources of trauma. *Supporting and Educating Traumatized Students* is an essential resource for classroom teachers, administrators, and school based professionals, as well as courses that address crisis, trauma, and education across a broad spectrum of specializations.
