Westwood,Karen Barton,2016-04-01 As one of the learned professions requiring advanced learning and high principles law enjoys a special standing in society In return for its status and rank the legal profession is expected to exhibit the highest

levels of honesty trust and morality the very values which underpin the legal system itself This in turn entrusts to legal education a particular problem of addressing not only the substantive elements of the body of law but a means through which the characteristics of the calling of law are imparted and instilled At a time when the very essence of the legal profession is under threat this book calls for a realignment of the legal curriculum and pedagogies so as to emphasise the development of culture over industry character over eloquence and calling over skill Chapters are grouped around the core content and key themes of Curiosity Calling Character and Conscientiousness Contract and Culture The volume includes contributions from leading experts drawn internationally and from other professional disciplines in order to present alternative approaches aimed at tackling common issues providing insight and provoking debate
