Surface And Depth The Quest For Legibility In American Culture:

   Surface and Depth ,2003   Rocket States: Atomic Weaponry and the Cultural Imagination Fabienne Collignon,2014-07-31 Rocket States crosses the disciplines of Cold War Studies American Literature American Studies and Cultural Studies The particular attraction of this study lies in the combination of its range close textual and visual analysis of the correlations between land and weaponry set firmly within its political and cultural contexts with its unique analytical approach The book offers a synthesis between history theories of technology theories of space popular culture literary study and military science It illuminates a variety of literary texts from key writers and thinkers such as Pynchon Stephen King Norman Mailer and Tom Wolfe while also invoking figures like Nikola Tesla James Webb Batman and Ronald Reagan Organised topographically according to how missile technology manifests itself differently in particular locations Rocket States s geographical targets are Colorado Kansas Cape Canaveral and New York variously titled Excavation Preservation Evacuation and Transmission It advances through these states roughly chronologically beginning in the late 1940s and early 1950s and coming to an end in the first part of the 21st century Collignon s argument is concerned with identifying the recurring figures and fantasies of the Cold War the dome or parabola as sheltering techno form the fictions of total security adapting to constantly changing targeting strategies gadget love closed freezing worlds As such Rocket States analyses by what processes the Cold War is frequently literalised in its weapons installations and how these facilities in turn shape dreams of containment survival escape and techno supremacy   *The New Melville Studies* Cody Marrs,2019-03-21 This collection reimagines Melville as both a theorist and a writer approaching his works as philosophical forms in their own right

   Citizen Spectator Wendy Bellion,2012-12-01 In this richly illustrated study the first book length exploration of illusionistic art in the early United States Wendy Bellion investigates Americans experiences with material forms of visual deception and argues that encounters with illusory art shaped their understanding of knowledge representation and subjectivity between 1790 and 1825 Focusing on the work of the well known Peale family and their Philadelphia Museum as well as other Philadelphians Bellion explores the range of illusions encountered in public spaces from trompe l oeil paintings and drawings at art exhibitions to ephemeral displays of phantasmagoria Invisible Ladies and other spectacles of deception Bellion reconstructs the elite and vernacular sites where such art and objects appeared and argues that early national exhibitions doubled as spaces of citizen formation Within a post Revolutionary culture troubled by the social and political consequences of deception keen perception signified able citizenship Setting illusions into dialogue with Enlightenment cultures of science print politics and the senses Citizen Spectator demonstrates that pictorial and optical illusions functioned to cultivate but also to confound discernment Bellion reveals the equivocal nature of illusion during the early republic mapping its changing forms and functions and uncovers surprising links between early American art culture and citizenship   **Idle Threats** Andrew Lyndon Knighton,2012-10-22 The 19th century witnessed an explosion of writing about unproductivity with the

exploits of various idlers loafers and gentlemen of refinement capturing the imagination o fa country that was deeply ambivalent about its work ethic Idle Threats documents this American obsession with unproductivity and its potentials while offering an explanation of the profound significance of idle practices for literary and cultural production While this fascination with unproductivity memorably defined literary characters from Rip Van Winkle to Bartleby to George Hurstwood it also reverberated deeply through the entire culture both as a seductive ideal and as a potentially corrosive threat to upright industrious American men Drawing on an impressive array of archival material and multifaceted literary and cultural sources Idle Threats connects the question of unproductivity to other discourses concerning manhood the value of art the allure of the frontier the usefulness of knowledge the meaning of individuality and the experience of time space and history Andrew Lyndon Knighton offers a new way of thinking about the largely unacknowledged productivity of the unproductive revealing the incalculable and sometimes surprising ways in which American modernity transformed the relationship between subjects and that which is most intimate to them their own activity **The Address Book** Deirdre Mask,2020-04-14 Finalist for the 2020 Kirkus Prize for Nonfiction One of Time Magazines s 100 Must Read Books of 2020 Longlisted for the 2020 Porchlight Business Book Awards An entertaining quest to trace the origins and implications of the names of the roads on which we reside Sarah Vowell The New York Times Book Review When most people think about street addresses if they think of them at all it is in their capacity to ensure that the postman can deliver mail or a traveler won t get lost But street addresses were not invented to help you find your way they were created to find you In many parts of the world your address can reveal your race and class In this wide ranging and remarkable book Deirdre Mask looks at the fate of streets named after Martin Luther King Jr the wayfinding means of ancient Romans and how Nazis haunt the streets of modern Germany The flipside of having an address is not having one and we also see what that means for millions of people today including those who live in the slums of Kolkata and on the streets of London Filled with fascinating people and histories The Address Book illuminates the complex and sometimes hidden stories behind street names and their power to name to hide to decide who counts who doesn t and why William Faulkner's Modernist Nympholepsy Mary Alice Knighton,2003 *Publications of the Modern Language Association of America* ,2003 American Studies as Media Studies Frank Kelleter,Daniel Stein,2008 Media are an inescapable part of collectively shared realities shaping our daily lives in complex and frequently unintelligible ways In the wake of recent changes in the field of American Studies questions of medium and mediality have become a central venue for interdisciplinary research and intradisciplinary self examination This volume collects twenty three essays first presented at the 53rd conference of the German Association of American Studies All of the essays are concerned in one way or another with the aesthetics and materiality of media They cover a variety of topics ranging from the intermediality of American literature and the visual mediality of film and photography to the role of media in American politics and the impact of the internet The volume is divided into five segments The Book as Medium and the

Mediality of Literature Visual Culture Intermediality Image Music Text Politics and the Public Sphere The Didactics of Media Studies   **American Literary Scholarship** James Leslie Woodress,2004   *The Arbiters of Reality* Peter West,2008 The Arbiters of Reality Hawthorne Melville and the Rise of Mass Information Culture disrupts our critical sense of nineteenth century American literature by examining the storytelling strategies of both Nathaniel Hawthorne and Herman Melville in light of an emerging information industry Peter West reveals how these writers invoked telegraphic and penny press journalism daguerreotypy and moving panoramas in their fiction to claim for themselves a privileged access to a reality beyond the reach of a burgeoning mass audience Locating Hawthorne and Melville in vivid and overlooked contexts the Salem Murder scandal of 1830 which transformed Hawthorne s quiet city into a media manufactured spectacle and Melville s New York City of 1846 47 where the American Telegraph was powerfully articulating a nation at war West portrays the romance as a reactive deeply rhetorical literary form and a rich historical artifact In the early twenty first century it has become a postmodern clich to place the word reality in scare quotes The Arbiters of Reality suggests that attending to the construction of the real in public life is more than simply a language of critique it must also be understood as a specific kind of romantic self invention   Bookforum ,2001   *America, History and Life* ,2005 Article abstracts and citations of reviews and dissertations covering the United States and Canada   *Consuming Identities* Amy Katherine D. Lippert,2009   **The Nathaniel Hawthorne Review** ,2005   *Nineteenth-century Literature* ,2003   **American Book Publishing Record** ,2003   Romance with America? Winfried Fluck,2009 Romance with America is a collection of twenty one essays by one of today s most important American Studies scholars The selection assembled here pays tribute to the immense scope of Winfried Fluck s intellectual pursuits It traces nearly four decades of continuous engagement with a set of key problems among them the cultural functions of fiction and the imaginary their manifestations in different periods of American literary and cultural history the role of aesthetic experience in the construction of national and individual identities as well as the state of American Studies and its competing narratives about America Throughout these essays several of them previously unpublished or not yet published in English the author unfolds a comprehensive cultural theory that reaches well beyond the study of America   *Choice* ,2003   Forthcoming Books Rose Arny,2003
